OFFER REWARD TO MRS. MELLETT

MERCER COUNTY FARMER IS KILLED

Discharges Rifle While Going Out To Butcher Pigs

Bullet Strikes Him In Head —Dies En Route To Grove City Hospital

PARK ATWELL, 50, ACCIDENT VICTIM

Was Well-Known Farmer Residing Five Miles East Of Grove City

(Special To The News)
GROVE CITY, Pa., Oct. 28.—Park Atwell, aged 50, well-known farmer, whose home was five miles east of this city, died en route to the hospital here this morning as the result of accidentally shooting himself in the head with a rifle.

According the the facts as learned by County Coroner W. J. McGrath, who investigated, Mr. Atwell was going into the pig pen at his farm, preparatory to starting the fall butchering. His foot caught in a trough, and he was thrown off his balance. In some manner the rifle trigger was struck and the bullet discharged. The bullet struck Mr. Atwell in the head, and while instant death did not result, he died a short time later as he was being rushed to the Grove City hospital.

Mr. Atwell was one of the best known farmers of the district. He is survived by his widow and a number of small children.

Plan To Examine Body Of Slain Church Singer

Body Of Mrs. Eleanor Mills Will Be Taken From Grave For Examination

REPORT TONGUE WAS CUT OUT

Darkness Halts Activity Wednesday; Dr. Hall's Body May Also Be Exhumed

(International News Service)
NEW BRUNSWICK, N. J., Oct. 28.—The body of Mrs. Eleanor Mills will be lifted from its four-year-old grave in Episcopal cemetery here this afternoon and an autopsy performed by Dr. Otto H. Schultze to determine whether the choir singer's tongue was cut out.

Special Prosecutor Alexander Simpson said he ordered a new autopsy performed following receipt of information from a Jersey City attorney that Mrs. Mill's tongue had been cut out by whoever murdered her and the Rev. Edward Wheeler Hall.

Darkness prevented exhumation of Mrs. Mill's body last evening, although the grave was opened. The

Report Building Trade Conditions Here Excellent

A regular meeting of the Building Trades Council was held last night with a good attendance of the delegates from the affiliated organizations. There were a number of matters of importance considered dealing with the affairs of the building trades organizations in this city and the country generally.

A resolution thanking David Jameson for his gift of a hospital to the city was adopted. It was reported at the meeting that building trade conditions here are good with all classes of workmen being employed and there being a demand for more workmen in some lines than are available.

SUNDAY BASEBALL ILLEGAL IN STATE

(BULLETIN)
(International News Service)
HARRISBURG, Pa., Oct. 28.—Sunday baseball is illegal in Pennsylvania, President Judge William M. Hargest of the Dauphin county court, ruled today in the case of the Philadelphia Athletics, American League baseball club.

The ruling was handed down in the quo warranto proceedings instituted by Attorney General George Woodruff against the character of Philadelphia club, a Pennsylvania corporation. The proceedings followed a Sunday game played in Philadelphia by the club.

All Plans Are Completed For Dinner Tonight

Expect 2,600 To Be Seated In Dining Halls For Notable Dinner At 6:30 O'clock

MEETING TO BE STARTED AT EIGHT

All arrangements have been completed for the community dinner and meeting in the Scottish Rite cathedral this evening, under the direction of the New Castle Chamber of Commerce.

Indications are that this history making dinner will be carried out most successfully.

Final instructions deemed necessary in order to provide for the cooperation needed on the part of the immense crowd that will attend are given elsewhere on this page.

Serving of the dinner will begin at 6:30 o'clock and the meeting in the auditorium will be started at 8 o'clock.

COMMENCE WORK ON WATER MAIN

Parking Prohibited In North Mercer Between Washington And North Streets

Employes of the New Castle Water company today commenced work on the 20-inch main which is to be laid in North [illegible] street, from Washington street to Laurel avenue.

A score of workmen this morning commenced a section of pavement between Washington and North streets.

Traffic police have prohibited parking between the two streets but north and south traffic lanes will be kept open.

The new main will provide a greater volume and pressure to the business district.

Men Injured By Escaping Steam

Albert E. Lents, of Wilson, Pa., and William H. Lloyd of West Elizabeth, Pa., are in the Shenango Valley hospital as the result of injuries sustained this morning by the escaping of steam from the boiler on the engine on the Pennsylvania railroad about a mile from the Harbor Bridge.

Both men were on the engine at the time when the accident occurred. Mr. Lloyd inhaled a quantity of steam and Mr. Lentz had one of his hands severely burned by coming in contact with a red hot iron.

Report Says King Ferdinand Takes Turn For Worse

Berlin Newspaper Declares Death Of Roumanian King Is Near

U. S. SKEPTICAL OF THIS REPORT

Believe It But Another Of Rumors Started Since Queen's Departure

(International News Service)
BERLIN, Oct. 28.—The condition of King Ferdinand of Roumania has taken a sudden turn for the worse, and his death may be expected at any time, according to a dispatch today to the Lokal Anzeiger from its Bucharest correspondent.

KING FERDINAND

This news, coming on the heels of the controversy over the reported request from the Bucharest foreign office for Queen Marie to cancel her American tour and return home immediately revived speculation as to the length of the queen's sojourn in the United States.

It has been known that the king has been suffering for some time from nervous trouble, but it had not been intimated that his condition was critical.

The Lokal Anzeiger report is contrary to reports which have been received from other sources, which would indicate that King Ferdinand's condition is not critical.

From the Roumanian foreign office and from the spokesmen for Queen Marie in this country there have come repeated warnings that sensational rumors purporting to come from Bucharest should be discounted.

The first report that King Ferdinand had cabled Queen Marie to come home was officially denied.

A later report was circulated, for which there is no apparent foundation, that the queen's physicians had ordered her home.

Now comes the report of the critical illness of King Ferdinand, which is receievd by a single European newspaper and is as yet unconfirmed from other sources.

In the light of all these conflicting rumors, and realizing that Queen Marie's American tour is a matter for political bickerings in Roumania, it seems that the Lokal Anzeiger reports should be received with reserve.

Provide Street Car Service To Cathedral

C. C. Coulthard today stated that every car that can be mustered into service will be on the rails to transport diners to and from the community dinner at the cathedral tonight. It is anticipated that automobilists will leave their autos at home this evening and in order to provide prompt and ample service the P-O company will place every car possible in service.

Believe Clubber At Toledo Will Be Identified

Large Rewards Spur Hunt For Fiend—Three Suspects Are Under Arrest

CITIZENS ASKED TO GO UNARMED

Porch Lights Burn On Hundreds Of Homes In City Last Night

(International News Service)
TOLEDO, Oct. 28.—Police here today expressed the belief that the fiend who has been responsible for the deaths of five women and attacks upon a half dozen others, will be identified within a few hours.

Stimulated by the rewards totalling $4,600 detectives and others have succeeded in arresting three persons whose actions have been suspicious and whose movements were vague. Of these one is known to be an imbecile.

Find Evidence

Yesterday the first bit of evidence in connection with the clubber's crimes was discovered when a janitor found an iron bar, smeared with human blood and hair, in an ash heap near the spot where Miss Lily Croy, 26, school teacher, became the brute's fourth victim Tuesday.

Toledo was a brilliant city last night. At the suggestion of Chief of Police Kennings, porch lights were kept burning throughout the night. Every available policeman patrolled the fashionable southwest section where the clubber has swooped from ambush upon his victims.

The police official has asked private citizens to go unarmed, fearing that the acute nervousness of the community might result in the accidental killing of innocent persons. The American Legion has offered the service of 200 sharpshooters for night patrol but these have not yet been ordered out.

Trinity Choir To Meet For Practice

The choir of Trinity church will have a rehearsal Friday evening at 8 o'clock in the Guild room to complete preparations for the special service next Sunday, being the Eve of the Feast of All Saints.

The local chapters of the Order of the Eastern Star will be guests of the congregation on Sunday.

To Dedicate Cathedral On Next Sunday

Dr. J. Linwood Eisenberg Of Slippery Rock State Normal To Make Address

CHANGE IS MADE IN MEETING DATE

Announcement is made today that the formal dedicatory program at the new Scottish Rite Cathedral on Lincoln avenue, will take place on Sunday, October 31, at 3 o'clock, in the auditorium of the cathedral.

The service will be public.

Arrangements had previously been made for this dedication on November 7, but due to the fact that a change was made necessary in the date, and next Sunday selected, a change was also made necessary in the speakers. Bishop Berry was to have been here on November 7, but is unable to attend on October 31. The principal address of the occasion will be delivered by Dr. J. Linwood Eisenberg, principal of Slippery Rock State Normal School.

A number of musical selections will also be presented in connection with the program for the dedication.

Blast Wrecks Doctor's Home

(International News Service)
BROWNSVILLE, Pa., Oct. 28.—The residence of Dr. Charles C. Ryan, at Republic, near here, was almost completely wrecked by an explosion of gas early today, according to word received here.

A bed in which the doctor and Mrs. Ryan were asleep crashed from an upper story to the doctor's office on the first floor when the floor gave way in the explosion, but both escaped unhurt.

Damage was estimated at $10,000. The explosion was believed to have been caused by escaping gas in a heater in the basement.

WASHINGTON, Oct. 28. — No conclusion will be reached by the Treasury as to the reimposition of countervailing duties on German steel products, until Secretary of the Treasury Mellon has had an opportunity to study fully the report on the situation prepared by the German-American mixed commission, it was announced today.

In making public the report Mellon warned that no statements contained should be interpreted as a decision or expression of opinion by the American Government.

Planet Mars Remains Far Distant Mystery

(International News Service)
LONDON, Oct. 28.—The planet of Mars today remains as far distant and as much a mystery to the dwellers of the earth as ever. The attempts by professional and amateur astronomers of London to gain telescopic insight into the Martian life were generally unsuccessful, as were the radio experiments.

Heavy clouds interfered with the majority of astronomical observations from London and other parts of England during the night. Some dark markings on the surface of the distant planet were distinguished, but all lesser markings were indistinct or almost wholly invisible most of the time.

All efforts to catch radio signals from Mars apparently were unsuccessful, including those of Doctor Robinson, psychic expert who handed in a message, in what was supposed to be the Martian language, to a radio company for transmission to the planet. It evoked no reply. The message was sent out from the Rugby Radio Station over a wave length of 10,240 meters.

The enthusiasts have not given up, however, it having been announced that the experiments will be continued throughout this week.

Schenley High Rooters To Come In Special Train

Announcement Of Arrangements Is Made By Faculty Manager Here

EXPECT 500 WILL COME FOR GAME

Breaking a precedent in Pittsburgh high school history, Schenley high will charter a special train over the P. & L. E. lines to New Castle Saturday morning.

Announcement to this effect was made through Faculty Manager Ralph H. Gardner of New Castle high school today. According to the information received at the local institution the Pittsburgh school will send in the neighborhood of 500 students and fans on the "special". Never before in the history of Pittsburgh has a high school team chartered a special train to invade distant territory, for football competition.

Mr. Gardner in making public the decision of Schenley high to charter the train, stated that a section of the Ben Franklin field would be roped off and reserved for the visitors. Whether or not Schenley high will send its splendidly uniformed band to New Castle Saturday was not known today.

Much Interest.

Interest in the Schenley-New Castle high game Saturday is at fever heat in both cities. The Pittsburgh fans have witnessed a New Castle team in championship action, as to wit, the Charleroi and Turtle Creek Union games, and for that very reason they know full well that the undefeated Schenley high machine faces a stiff contest in the Lawrence county seat.

Preparations are under way today to have a delegation of New Castle high officials and members of the band meet the "Schenley special" and extend to them every courtesy shown the football teams in the past who have had occasion to play in New Castle. The entire city of New Castle will join in welcoming the Pittsburgh visitors and to see to it that they receive the kind of treatment that New Castle is shown in other cities.

Jeanette high was the last school to charter a special train for the trip to New Castle.

Judging from present indications Ben Franklin high field will be jammed to capacity Saturday. The largest throng of the year is expected to witness the grid classic that brings together two of the finest schoolboy teams in western Pennsylvania.

CANCEL PARTY

Owing to the fact that there are so many Hallowe'en parties in the homes of New Castle and vicinity on Friday evening, the party for the Junior A. & B. and the Junior Employed A. & B. classes to be held at the Y. M. C. A. Friday has been called off.

Chest Drive To End On Monday

Final Meeting To Be Held At Six O'clock Next Monday

FUND NOW STANDS WITH $82,000 PLEDGED

At the noon meeting today of the third Community Chest, with a grand total of $82,020 reported, it was decided to continue the drive until Monday night, with no meeting being held until that time. The final meeting will be held Monday night at 6 o'clock in the First Christian church.

The team totals for today's report was $1765. Because of the many women who are taking part in the service of the community dinner tonight, some of the women could not be present today.

Need $20,000.

Approximately $20,000 is needed to make the drive a complete success. J. K. Furst made an appeal today asking that every worker step out and secure as many subscriptions as possible between now and Monday night and the reaction to his appeal was good.

One of the features of today's meeting of the third Community Chest was the contribution of the New Bedford Boy Scouts of $10. Their interest in a drive outside their community was appreciated.

The totals of today's drive follow:

Division "A"	$ 686.00
Division "B"	170.00
Division "C"	277.00
Division "D"	96.00
Division "E"	241.00
Division "F"	160.00
Executive committee	135.00
Total for today	$1,765.00
Previously reported	$80,255.00
Grand Total	$82,020.00

STREET CAR RUNS AWAY

Motorman Killed And Number Of Passengers Hurt At Wheeling

(International News Service)
WHEELING, W. Va., Oct. 28.—One man was killed, seven persons were seriously injured, two of whom may die, and a score of other passengers suffered slight injuries when a street car operating to Mozart park ran away on a steep grade at the foot of the long hill and crashed through a store as it failed to negotiate a turn, here early today.

Frank S. Earline, 70, motorman, was instantly killed in the crash.

Those reported injured were Joseph Gauss, conductor, and Mrs. Alexander Jones, George Rempke, Albert Seterenger, Carl Randall, William Shoble and Ross Reidle, all of Wheeling.

Rempke was reported to be in a dying condition.

Reward Money Offer Is Made By T. J. McDermott

Brother Of Pat McDermott Sends Letter To Widow Of Slain Man

SAYS HE COULD NOT TAKE MONEY

Turned Up Brother In Effort To Solve Mystery, He Writes To Widow

(International News Service)
NANTY GLO, Pa., Oct. 28.—A letter from Thomas J. McDermott, brother of Patrick McDermott, so-called "key figure" in the Don R. Mellett murder, to Mrs. Mellett, widow of the Canton publisher, offering her the $5,000 reward he was entitled to receive for Pat's capture, was in the mails today, Thomas McDermott said at his home here.

The letter, addressed to Mrs. Mellett, in care of The Canton News, asked her to accept the money, "if not for yourself, for the education of the children of Don R. Mellett", and expressed the sympathy of the McDermott family for the widow.

The letter follows:

"Dear Mrs. Mellett:

"It is with the greatest difficulty that I write to you asking you to accept the sincerest sympathy of the entire McDermott family in Nanty Glo and Twin Rocks, Pa.

"My brother, Patrick, as you no doubt already are aware, is held by Canton authorities as one of those who brought about the death of your late husband, Don R. Mellett.

"He is in custody through my

JOKE BANDIT IS SHOT DOWN

Forfeits Life As Result Of Taking Part In "Joke" Hold-Up In Cincinnati

(International News Service)
CINCINNATI, Oct. 28—A would-be bandit, identified today as Louis Heller, 40, formerly of Allentown, Pa., is dead following an alleged attempt to hold up Frank Amann, druggist in his store here, with an unloaded revolver.

Amann fired point blank at the intruder, who died shortly after being admitted to a hospital.

"It was all a joke," Heller gasped as he slumped to the floor after his alleged holdup attempt, "the revolver wasn't even loaded." Police investigation disclosed an unloaded gun.

Amann was not held.

It's the time of the year when the crops are in, the pumpkins and squashes and hay, it's the time of year when the farmer lad can loaf an occasional day. For the fields are clean of their wealth of crops, the cattle are in the barn, and he can sit down by the fireside and snooze or spin him a yarn. It's the payoff time for the farmer lad when his work in the summer will show, and the crops he raised he will take to town, and return with a load of dough. The hours he worked were long of course, and heavy the task was then, for farming is not for an idle chap, it's a job that requires men. And the fellow who worked in the blazing sun sits back as he thinks of his pay, and the spuds and beans and the kindred stuff, it's up, sixty-seven today.

Attorney Battles To Talk To McDermott

BY BEN STERN
International News Service Staff Correspondent

CANTON, Ohio, Oct. 28.—Extraneous conditions seem fated to overshadow the importance of a confession—yet to be obtained—from Pat McDermott, alleged by investigators to be the "key figure" in the mystery surrounding the murder of Don R. Mellett, Canton publisher on July 16.

A legal battle took the stage today and the possible confession passed temporarily into the winds as Ed. L. Mills, Canton attorney for Ben Rudner and Louis. Mazer, facing trial with McDermott on first degree murder indictments, prepared to face Prosecutor C. B. McClintock before Judge A. W. Agler today in a contest to decide whether Mills will be permitted to interview McDermott.

Mills today asked to see McDermott on the grounds that the latter is a witness material to Mazer's defense and that he had expressed a desire to talk to the attorney, who upon presenting himself at the workhouse in answer to the alleged request was barred from entering by Supt. John Boyer.

Mills charged that refusal to permit him, to visit McDermott's cell is a violation of both state and federal constitutional provisions and unless the defense attorneys are permitted to talk with McDermott they will be unable to prepare their case for November 8, the date set for the trial of Mazer.

Final Instructions For Community Dinner

The final plans and instructions to those who will be in attendance at the community dinner at the cathedral tonight as worked out by president Fred L. Rentz, A. L. Thayer, General Committee Chairman, Percy L. Craig, Chairman of Reception committee and the other committees assisting, are as follows:

Doors will open promptly at 5:45 p. m., and all are requested to come as shortly following that hour as possible. Tables have been reserved for the speakers, officers and board of directors, and all of the members of all of the committees of the Chamber and their ladies.

The officers and members of the board of directors and their wives are requested to go direct to the table reserved for "speakers and officers".

The members of the reception committee and all other committee-members of the Chamber of Commerce are requested to go direct to the three tables in the center of the main dining room facing the speakers' table where seats are reserved for them.

The newspaper representatives are requested to go direct to the portion of the table reserved for them in the ball room at the side facing the main dining room.

The ushers and their ladies are requested to go direct to the table reserved for "ushers" which is located at the left of the speakers' table facing the main dining room at the eastern entrance to the hallway leading from the kitchen.

All of the special guests who are represented in those visiting from other Chambers of Commerce are also requested to come to the three tables reserved facing the speakers' table.

Immediately following dinner, those present will repair to the auditorium and it is requested that everyone follow implicity the instructions of the ushers. There need be no rush or hurry to secure seats in the auditorium as all of the seats there are excellent ones, and provision is made for each and everyone present.

It is hoped that all of those attending will adhere strictly to the plans which have been perfected and each assist in preventing any confusion which may otherwise take place in the handling of such a large crowd as this.

These instructions are given on account of the magnitude of this meeting.

Building Trades Council Commends David Jameson

At the regular meeting of the Building Trades Council held last evening, a resolution was adopted expressing the appreciation of the organized Building Trade Workmen of the city of the $600,000 gift of David Jameson for the construction of a hospital in this city. The resolution will be spread upon the minutes of the organization and a copy sent to Mr. Jameson.

The resolution as presented and passed follows:—

Whereas, the officers and members of the Building Trades Council of the city of New Castle have been informed that Mr. David Jameson has donated the magnificent gift of $600,000 to the people of New Castle for the erection of a hospital.

And whereas, the gift is very appropriate and needful and will be a great benefit to all the people of our city, thereby eliminating crowded conditions in our hospitals, which we have had in the past and thereby supplying the necessary conveniences and facilities that the injured and sick can have proper attention accorded them.

Therefore, be it resolved that we, the Building Trades Council express our sincere thanks and gratitude to Mr. David Jameson for the noble and humanitarian gift, a copy of this resolution to be spread on the minutes of our council, published in the press of the city and a copy presented to Mr. David Jameson.

Shepherd Wins Fight For Will

"Billy" McClintock Case Recalled As Will Probate Is Allowed

PROVIDES ANNUITY FOR ISABELLE POPE

(International News Service)
SPRINGFIELD, Ill., Oct. 28. — William D. Shepherd of Chicago, today won his fight for possession of the million dollar estate of "Billy" McClintock, when the state Supreme court affirmed the verdict of the Cook county circuit court admitting McClintock's will to probate.

"Billy" McClintock died at Shepherd's home in Chicago following which Shepherd was tried and acquitted of a charge of poisoning the youth.

Following "Billy's" death, Shepherd produced a will, which left the million dollar estate entirely to Shepherd, with the exception of an $8,000 annuity to Isabelle Pope, "Billy's" financee. McClintock also is survived by ten cousons.

The heirs claimed that Shepherd unduly influenced making of the will and when Shepherd presented it for probate in Cook county, Judge Henry Horner refused to probate it.

own effort and other members of the family, both in Pennsylvania and Ohio, to aid you and Canton authorities in solving this mystery and in bringing the guilty person or persons to justice.

"Being the one who found Patrick and brought him back to Nanty Glo, where eventually he was surrendered to proper authorities, I am, I believe entitled to a reward of $5,000, offered for his arrest.

"Mrs. Mellett, I could not, and no member of the McDermott family could, accept that reward. It is my desire, and the desire of the entire family, that the reward be turned over to you.

"We are not doing this for any other reason than that we want to show in some way our deep sympathy for you and yours.

"It would be greatly appreciated by us if you would accept this money, if not for yourself, for the children of Don R. Mellett and their education.

"Yours very truly,

Says McDermott Will Talk

NANTY GLO, Pa., Oct. 28.—"Patrick McDermott will talk."

This was the prediction and promise made today by Thomas J. McDermott, brother of the "key man" in the Don R. Mellett murder. The brother, who was largely instrumental in bringing McDermott into the hands of Canton authorities, said that another brother, Bernard McDermott, now in Canton, would be able to "handle Pat", and that any information the latter has would be given to Canton authorities.

Thomas will attend his brother's trial at Canton, together with other relatives in Pennsylvania and Ohio, he said, but Bernard is the only member of the family who, it is expected, will be present when authorities question Patrick about the Mellett murder.

South Side To Share In Event

One Section Of Mummers To Come Uptown From Long Avenue

SPECIAL PRIZES TO BE AWARDED

Ben Franklin High Band To Lead South Side Mummers

Scope of the community Hallowe'en celebration on next Monday evening was broadened today, Mayor William H. Dunlap, who has sponsored this important event with the assistance of merchants and others of the city, announcing that the South Side district, which has a large business district, had entered into the spirit of the occasion and that as a result that section would be given recognition in joining in the big event.

It is planned that the parade in the principal part of the city shall get under way at eight o'clock, Chief Marshal L. B. Round and his aides planning to this effect.

In the South Side district, the Benjamin Franklin junior high school band, will assemble at 6:30 o'clock at the Lincoln and Garfield school. The mummers of that section are requested to be on hand at the same time, reporting to special marshals, including D. O. Davies, city councilman. At seven o'clock, the band will head a parade of mummers in that section along the business district and then lead these mummers up town to take part in the big parade.

There will be a number of prizes donated by the merchants of that district given away by special judges for those participating in this sectional parade. This will not bar the winners there from participating in the big parade and possibly winning again. There is no bar on any mummer participating in either place.

In the big parade uptown, there will be the mummers from all sections of the city with the high school, Benjamin Franklin junior high school and Croton school bands furnishing the music.

The parade is to be over before 9:30 o'clock, when the mummers dance in the Genkinger & Ludwig garage on West Washington street, just across the West Washington street bridge, will get under way. Fine music for the dance in this place, which has a concrete floor will be furnished by the ten piece Noble's Pennsylvanians orchestra. The dance will be concluded at 10:30 o'clock.

Train Hits Auto; Three Are Killed

(International News Service)
MILTON, Ont., Oct. 28. — Three persons were killed and one seriously injured today when the Canadian Pacific Railroad's Toronto-Guelph passenger train struck an automobile near the station here. The dead: A. B. Couch, of Montreal, president of Simmer Knit, Ltd., of Hamilton; George Kipps, of Hamilton, superintendent of the factory and A. E. Jones, in charge of the Knot Company's hosiery department.

Mrs. Jones, the other occupant of the car, was so seriously hurt that she was not expected to live.

Town Talk

Painters under the jurisdiction of traffic police today painted lines to prevent cars being parked too close to street intersections.

According to J. L. Mosely, who takes the measurements of local streams, the heighth of water in the Neshannock and Shenango rivers is falling.

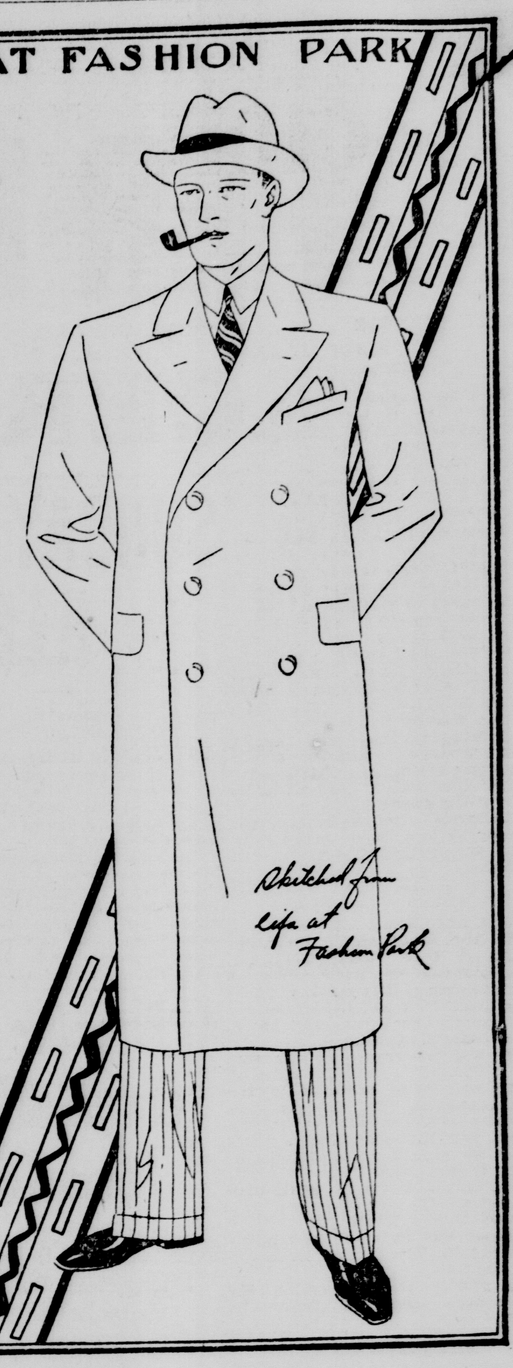

Motorists should exercise caution at Beaver and West Washington streets as workmen are excavating.

A dog which had been dolled up with a Hallowe'en false face, was noted on Neshannock avenue, by pedestrians, last night.

RHEUMATISM RECIPE

Ex-Sergeant Paul Case, Room 117 Grace Building, Brockton, Mass., states that while serving with the American Army in France he was given a prescription for Rheumatism and Neuritis that has produced most gratifying results in thousands of cases. He says the prescription cost him nothing, so he asks nothing for it, but will send it free to any one who writes him.

MOOSE HAVE CELEBRATION

Anniversary Of Mooseheart Is Observed At Local Moose Home

Several hundred members, their families and friends, thronged the Moose home on South Jefferson street on the occasion of the observance of the thirteenth anniversary of the founding of Mooseheart, Ill., the date being designated as "Mooseheart Day" by the Loyal Order of Moose.

The occasion proved most enjoyable to all those in attendance and the program as previously announced was carried out in every detail. The official service designated for the occasion was presented in the hall of the home at eight o'clock with Andle Southern, dictator of the local lodge, and other officers taking part.

This was followed by short addresses by T. J. O'Hara and H. L. Wright. All were then served with sauerkraut and weiners, after which dancing was the diversion of the occasion until the midnight hour.

The success of the event was due to the efforts of the committee in charge, which consisted of Thomas J. O'Hara, J. J. Dunn, H. L. Wright, Charles Seigfried and F. W. Myers.

The occasion was one of the most successful and enjoyable in the history of New Castle lodge, No. 51, Loyal Order of Moose.

Princess Arthur of Connaught was the first of the English royal family to adopt the "bob."

Mrs. Paal Funeral

Funeral services for the late Mrs. John Paal were held from her late residence, 1221 East Washington street, Wednesday at two p. m. by Rev. A. M. Stump of St. Paul's Lutheran church. The pallbearers were: John and George Zank, Fred Singer Sr., Fred Singer Jr., Andy Roth and Carl Herman. Interment was in Greenwood cemetery.

Mrs. Nancy Plantz.

Mrs. Nancy Plantz, aged 78 years, wife of Avery L. Plantz died at the family home, 12 Round street Thursday morning October 28, at 5:45 following an illness.

Mrs. Plantz was born in Beaver county December 22, 1848, a daughter of Mr. and Mrs. Showalter. She had been a resident of New Castle for 40 years.

Besides her husband to whom she was married 55 years ago she leaves four daughters, Mrs. James Black of Youngstown, O., Mrs. C. W. Rodgers and Mrs. John Lockwood of Canfield, O., and Miss Jean Plantz at home. She also leaves one brother, Hugh Showalter.

Funeral services will take place Saturday afternoon at 2 o'clock from the home. Burial will be made in Greenwood cemetery.

PLAN TO EXHUME BODY OF SLAIN CHURCH SINGER

(Continued from Page One)

coffin appeared to be in good state of preservation.

Prosecutor Simpson planned to apply to the supreme court in Kings county, New York, for an order to have the Rev. Hall's body exhumed from Evergreen cemetery, Brooklyn.

Remove Body

New Brunswick, N. J., Oct. 28.—The coffin containing the body of Mrs. Eleanor Mills, who was murdered four years ago with the Rev. Edward W. Hall, was removed from its grave this afternoon. An autopsy will be performed later in the day to determine how the fatal bullets entered the slain woman's head, and whether her tongue was cut out, as has been reported.

More than half of the 105 counties of Kansas have women superintendents of public instruction.

Four Days Left

Only four days remain until the general election, November 2.

That support which you so generously gave me on May 18, I am hoping to receive on November 2, and in addition, I would ask the support of those who were bound by ties of friendship or duty, to vote for another candidate on May 18.

Those promises I made in the primary campaign I wish to reiterate.

I am opposed to the present extravagant system of tax collection, and to the bureaucratic system which centralizes governmental authority in the hands of many commissions and committees. I believe in an exemption of inheritance tax for small estates, and if elected, I propose to do everything in my power to assist in making these changes.

If you believe in such legislation, will you ratify the Republican nomination I received for the General Assembly, by voting for me on November 2?

SUPPORT THE TICKET

Next Tuesday you will go to the polling booth, there to register your choice for United States Senator, Governor and other offices.

Support the candidates of the Republican party. Supposing one or two of them are not the men you voted for in the Spring? What though there was a bitter battle in the primary. It was a fight inside the party and the duty of every Republican now is to support the choice of his party.

For months, enemies of the party have been hurling invective at it, hoping to confuse voters. There has been no stampede. Pennsylvania men and women are still capable of evaluating things for themselves.

They know that this cry of the opposition is not so much an attempt to do good as it is to get back into power, and the usual cry of the "outs" is "corruption."

Go to the ballot box on November 2 and vote for the party that has stood for the things most essential to Pennsylvania.

Vote a straight Republican ticket.

The nominees of the party are:
For United States Senator, William S. Vare.
For Governor, John S. Fisher.
For Lieutenant Governor, Arthur H. James.
For Secretary of Internal Affairs, James F. Woodward.
For Congress, J. Howard Swick.
For General Assembly, 1st District, Bart Richards.
For General Assembly, 2nd District, M. A. Bickett.

ASHES FROM THE FURNACE

THE furnace has come into its own, more or less, and will receive consideration from the hands of cowed householders until the Ides of March have safely and completely passed into history.

There is much similitude to humanity in a furnace. The chief trouble between man and his furnace is lack of sympathy. Neglected, the life of the furnace dims and flickers out, its broken heart dissolved into mute and obstinate clinkers; rashly indulged it burns itself out in a brief, blazing and profitless span; properly understood it is tireless in its determination to add to life its grateful warmth through register or radiator, and, in the latter case, occasionally adds its ironic chirrups and satirical comments to the wit and humor of general conversation.

The extent of its appetite is measured by your study of its dietary needs; and, if it is an expensive member of the family, at least it does its best to make as many ashes as possible for you and by finding as little as possible inflammable fuel in your bin. Sometimes, hurt by your reproaches, it wistfully seeks your good-will by refusing to burn anything at all.

This mite of philosophy is offered to the man who yesterday or the day before carried out his first load of ashes of the season, and faced the wrong way to the wind. With a smothered (?) soliloquy he dumped the load, right where the sifting dust could float most directly through the open doors of the garage upon the newly-washed automobile. What this man needs, assuredly, is not a strong vocabularly, for that he has, but a strong philosophy.

Life has its need of vexations, the rose has its thorns, the shoe has its nail, and the furnace has its ashes. That man who, having lost $5 through a hole in his pocket, and having leaned heavily one arm against the briar bush on the back fence, and with the shoe-nail piercing his heel, while ashes fill his nostrils and throat, can content himself with repeating softly a few smiling lines from William Wordsworth, that man is a strong character and a credit to his community.

And now, for the Love of Mike, where d'ya hide the soap?

A GRACIOUS GESTURE

OF COURSE monarchists of Europe will see in the excitement occasioned here by Queen Marie's visit evidence of insincerity on the part of the American people in their professed devotion to the republican form of government. And even at home there are cynics, no doubt, who fear the interest shown in royalty is unhealthy for a democratic people.

Both groups of critics forget, perhaps, that the United States has been receiving royalty for some decades, and, during the same period, has been getting farther and farther away from faith in monarchical principles. The present Prince of Wales and his grandfather received more than ordinary receptions because besides being royal guests they were what Americans term "good sports." The Belgian monarchs and Sweden's royal couple were well feted wherever they went in the states. And lastly came Queen Marie for her opera parties, white house dinners, wreath placings and receptions, all occasions for great gatherings of self-governing citizens.

The truth is that Americans are passionately fond of parades and do not lack imagination. To them kings and queens seem figures out of fairy books and romantic stories of chivalry. And then how many will not endure a little standing in the rain and crushing in the crowds just to be able to say they saw the king, or queen or crown prince, as the case may be.

But the best answer to the charge of insincerity is that the reception, great as it was, to Queen Marie was positively cold in comparison to those memorable ones in honor of the venerable Joffre and Gertrude Ederle. And how will the critics explain historical receptions received by President Wilson and General Pershing in the monarchies of Europe?

THE FIGHT AGAINST A BLIGHT

CHESTNUT blight is said to be making rapid headway in the forests in the Appalachian mountains, which have heretofore escaped this destructive plant disease.

For years scientists have been trying to check the blight, but without success. Unless the near future brings forth a remedy all native chestnuts in the United States will eventually be killed off.

Hope for future chestnut forests, however, is not based so much on the discovery of a cure for the blight as upon the importation of foreign varieties and the cultivation of "suckers" from native trees found to be immune from the disease.

If there is no chance of checking the blight in its advance southward and westward it might be well to hasten it to run out its course by cutting down the native forests. But public opinion can not bring itself to this resolve until all hope of a cure is past, and that will not be until the last tree is dead, or until a reforestation program can be engineered to plant an immune tree for every one removed.

Had this country developed forestry methods as some European nations have, through necessity, it would be a relatively easy matter to harvest the doomed trees with beneficial results to other trees and society.

Lots of us are looking for the path of least persistence.

Scientist thinks the next presidential campaigners will travel in airships. Well, they'll have the air.

Still, it isn't at all glorious to die defending your rights if the other driver is a road ho

Hints and Dints

Sun sets tonight 5:02. Sun rises tomorrow 6:26.

It would be a lot easier for us to keep our piece of mind if we would not give advice.

The Supreme Court of the United States has ruled that the President can fire any officeholder without the consent of congress or the senate. This ought to work for more efficiency in government work if the president sees fit to enforce that without interference.

Did you ever see anything funnier than a little man who thinks he is big and tries to act that way?

Too many of us will use up a dollar's worth of time hunting a bargain that will save us a dime.

Mr. Tunney, champion swatter of the world says he will not get married until the right girl comes along and has bet a thousand dollars that he will not be married within four years. No doubt they will start coming along for his inspection now.

We know of a New Castle business man whose chief delight is going home and getting down on the floor to play with his litle son's electric train.

If you travel in low you may miss a lot of thrills, but you will be able to travel the road of life longer.

Now they say man can live over an hour without fresh air, and we'll have to wait that much longer for a telephone booth.

A New York actress who had two feet of her hair burned by a hair dresser is suing for twenty-five thousand dollars damages. It would be interesting to know what a jury of bobbed haired women would do in that case.

The fellow who borrows trouble seldom pays his debts.

The season of the year is approaching when the farmer and his family fear for their lives. The hunters go prowling around over the land and often take a farmer for a groundhog, sheep or deer and blaze away at him. We don't blame farmers for putting up signs after seeing the other fool things city bozos will do.

We often wonder if the women have as much fun at the bathing beaches in the summer as they do in the department stores in the winter.

Nothing will make a man disagree with the world like not having his food agree with him.

A Cleveland man got a verdict of one dollar after he had sued a man for stealing his wife's affections for twenty-five thousand dollars. If the bird also has to pay his lawyer he will be owing himself money.

It surely would be a calamity if some men and women in New Castle now holding positions would have to go to work.

Nothing gives a new motor car owner a bigger thrill than the size of his first garage bill.

We know a ten year old chap who attended a Hallowe'en party and he says he had a grand time. One girl kissed him six times and another bashful miss gave him 36 busses. That was doing pretty good for one evening all right. He is looking for more parties like that. They must have played postoffice or something.

An optimist may be defined as a person who cannot stand a pessimist.

Citizens of Mexico who fail to vote at the coming election will be fined or sent to jail for 15 days. In that country they have to vote even if they do not know how.

After all all liars are not golfers and fishermen.

A Meadville man claims that after he was hit by an automobile he had no sense of smell at all and has sued the owner of the bus for ten thousand dollars. It may be that chap ought to be thankful that he has no smeller at all.

Happy marriages may depend upon eugenics but more on good dispositions.

We know of a boy who goes to the Junior high school and he likes the swimming pool, the cafeteria and the football best of all the things there.

For Bachelors to Read.

It is great to be a bachelor if you don't know any better. R. L. George fell down a flight of stairs near his rooming house in Haverhill, Mass. He struggled to his room where he lay three days, fully dressed, too weak to call for help and by that time was in a serious condition from lack of food and the effects of the fall, coming precious near being the victim of the famous independence of bachelorhood. It should be a lesson to George. He should know that no man can go through life successfully without some woman to take care of him.

Style makers pass the word to their customers that plaids, stripes and checks will be "the thing" in women's wear next spring. There'll be a strong play on simplicity of silhouette. Garments will run severely to straight lines. This sounds as if the ladies will look as if they'd been tailored by carpenters. The effect will be softened by an epidemic of Chinese colors—citron, lacquer, red, porcelain blue greens and delicate corals. The only thing that doesn't go out of fashion is father's pocketbook, which'll be as much in demand as ever before.

Although the school of experience may not have any regularly organized gridiron team of its own, a man sometimes feels that he is being used as a football.

One thing we have learned is that most of the charges that sporting events are crooked are made by persons who have bet on them and lost.

A woman in Chicago the other day in a fit of spite declared the city had a "washtub aristocracy". We can't deny that for we don't know, but there seems to be a machine gun aristocracy there.

Mussolini has forbidden the use of spaghetti, but he is not bold enough yet to put a ban on garlic.

And now a visiting Englishman observes that Americans aren't really hustlers. That's true. If they were they would be getting more money and less abuse from foreign countries than now.

A man comes forward with the statement that girls may catch men with face powder, but that it takes baking powder to hold them. This same man probably boasts that he taught his wife how to cook.

No President of the United States, it is discovered, has been very bald. That isn't exactly proof that baldheaded men have fewer brains than they have been claiming, but if we were a boy it would make us want to hold onto our hair.

Theft of a saxophone has been held justifiable burglary in Los Angeles. It was found that the owner of the instrument was guilty of disorderly practicing. Hope is thus afforded to neighbors to musical addicts, but how on earth is anyone going to steel a player piano?

There seems to be a difference of opinion as to the severity of the winter ahead of us, but it is safe to wager that the furnace will come in for the usual amount of attention.

In this land of the free, where all women are queens, folks certainly make a lot of commotion about a new one.

Every time that winter comes we wonder what the girls will take off next.

Silence isn't always golden. It may only indicate guilt.

The getting of four queens at one time is what gives a good many men and women a thrill.

This has been a hard year on champions and from the noise coming in New York state there is a chance that Al Smith will pass out too.

Clarence says he sees nothing wrong in taking the life of a defective child. Unless, of course, it is a defective child charged with murder.

When we observe how the other nations are patting Germany on the back we can't help wondering whether we didn't perhaps, pick the losing side for ourselves.

The Department of Commerce reports that America is now sending 29,000,000 false teeth abroad each year. They ought to be kept here and fitted to new and old laws.

If the family wage idea, under which a man would be paid in accordance with the size of his family, ever prevails in this country, the bachelors have first choice on all the good jobs.

Secretary of the Treasury Mellon says we have already canceled half of the war debts owned us by European nations. Now they are trying to make it unanimous by canceling the other half.

Distance doesn't lend enchantment when you run out of gas.

The common mistake of Gothamits is take a man at his dress value. Go well dressed and you can sell New Yorkers most anything. And many of the things that are being sold in New York can't be sold in smaller places.

Mrs. Rev. Hall, accused of her husand's murder says her family isn't rich. It's total wealth isn't more than $850,000. Will some one tell us what rich means.

Forty airplanes will spray poison gas in the Sonora district in an attempt of the Mexican government to wipe out the rebellious Yaquis. There are 2500 of the Indians and it is the purpose to assassinate them all. And this in the year 1926 A. D.

"Nothing can be done to stabilize the price of cotton; that would be an economic sin, against the sacred law of supply and demand." So you are told, and then you read this morning how Belgium wanted fifty millions from us to stabilize the Belgian franc and the stabilizing bonds "were gobbled up in less than half an hour after Wall street offered them."

* * *

Why a Belgian franc made of paper should be better security than the cotton crop of America is for high finance to say. Belgium sold her $50,000,000 bonds in New York between ten and ten thirty yesterday morning at $96 for a $100 bond so the buyer gets seven and a half per cent of his money and the banks get their "rake-off."

* * *

We are glad to help dear Belgium or Mesopatamia or King Feisal but what a pity we cannot find a way to help the American cotton grower. He also has some claim on American sympathy. One trouble is that he is not able to offer usurious rates of interest.

Nature is worrying her children all over the world with high winds, earthquakes, tidal waves, electric storms, New York city and Paris, 3,000 miles apart are swept by a hurricane; in the same 24 hours ships are blown over at sea.

Yesterday violent storms were raging all over France, with heavy rain and snow.

Science tells us that the trouble comes from our sun a giant magnet with electric storms and huge fiery upheavals in which our earth would be lost like a snowflake in Vesuvius. That is no comfort but let us consider what might be and be grateful.

The British empire is having trouble with the free unities that make up for its "far flung" dominions. Britain says "our power protects you, so give preference to British trade." The colonies are cold to that idea. South Africa demands the right to draw any color line it pleases, especially against Hindus that are British subjects. South Africa says Britain must not interfere even if it is embarassing.

The vigorous young sons are bossing their worried old mother Britannia.

Mussolini says: "I love Switzerland and she has nothing to fear from Italy ever." Switzerland says "Much obliged" and continues to keep prepared, every young Swiss taught to fight, every able-bodied man owning his rifle and ammunition and compelled to keep both in order.

The way to be safe is to be ready and Switzerland knows that.

It would cost more to conquer Switzerland than the conquest would be worth.

Ten million dollars worth of airplanes, bombs and gas sent against this nation at the right time might collect ten thousand millions of genuine dollars.

The interstate commerce commission is considering regulation of motor bus traffic because it takes passengers from railroads. Next should come regulation of a man's right to use his own automobile, then a law compelling citizens over 21 to travel so many miles a year by rail whether they want to or not.

What will the interstate commerce commission do when flying machines carry passengers across the continent in 24 hours for $25. That will come.

The River Shannon will be harnessed to supply the free state with power and somebody will write a song about "the turbines of the Shannon,' 'It will be less romantic than "The Bells of Shannon" but will mean more to Irish comfort and happiness.

A Spelling Lesson

The English language probably presents more difficulties in spelling than does any other.

The old-fashioned spelling bee perhaps has gone out of style, but spelling is still an accomplishment to be desired.

There is a sort of spelling instinct, or spelling consciousness, by which one is able to recognize instantly the correct or incorrect spelling of words. This probably comes most from practice.

Ernest Horn, of Iowa State University, and E. J. Ashbaugh, of Ohio State University, have prepared a list of words which, according to Dr. Horn's investigation of writing vocabulary, maintain a spelling difficulty of fifty per cent or more for eighth grade pupils.

For those who like that sort of thing some selections from this list are here made:

advisability	melancholy
ammunition	negligent
achievement	partisan
attendants	plausible
competitive	priviliged
auxiliary	reckoned
brunette	sandwich
chord	soothe
congregation	shocked
continuous	terrific
crepe-de-chine	staid

intellectual	loveliest
laurel	pious
imperative	righteous
magnificent	sympathies

The World AND THE Mud Puddles

YES, PRICES DEPEND.

Prices of a great many commodities seem to have been determined by the world upon the proposition, "What will the traffic bear?". It is well known that the great physicians and surgeons, as well as the great lawyers of the nation, estimate their fees for professional work upon the ability of the patient and client to pay. Ten per cent. of the annual income of the patient as a charge for a major operation by great surgeons, is well known; and the great surgeons have an uncanny method of knowing the annual income, without recourse to Federal Income Tax statements.

I know of a surgeon, who was not a great surgeon, but a very good one, who had a patient recently visit him. The patient was poorly dressed, and appeared to be in rather straightened circumstances. The patient's troubles were minor, but necessitated several calls at the office of the surgeon. After the first call, and the first treatment, the patient inquired, "What is the charge, Doctor?" The doctor, trusting in appearances, said "Two dollars", which was promptly paid. When the patient made his next call, he was dressed in rich garments, and when he asked for his bill, after that treatment, the doctor replied: "Ten dollars!" It was paid.

Professional men are not the only ones who value their wares, according to the garment of the buyer. A banker out motoring one Sunday afternoon, ran over and killed a farmer's chicken. No one was in sight, although a prosperous looking house stood off the road a bit. The banker picked up the dead chicken, and started for the house afoot. His knock attracted a work stained farmer, who asked his pleasure.

"I just run over one of your chickens," remarked the banker, "and I'd like to pay the damage; how much for the chicken?"

The farmer was surprised. He had had chickens destroyed before by motorists, and this confession was so straightforward, that it took away his breath. He was evidently taken aback.

"W-w-w-w-well," he began, "I er—I, well, I, er, I—er—what is the make of your car?"

YOU

If you have the will to learn, knowledge you can surely gain,
It is near for you to earn, you can have what books contain.
All the wisdom of the age waits for you on many a shelf
But to know the printed page you must read it for yourself.

Lad, remember as you go, not in others lies your fate,
What you wish to be and know rests with you alone to state.
Give no thought to chance or luck, only they who work are wise.
Fortune oftener smiles on pluck, victory comes to him who tries.

Each must for himself decide what his destiny shall be.
Each must in himself take pride, None from such a choice is free.
Reputation must be earned. If you'd own a worthy name
Never must your feet be turned to the crooked paths of shame.

Life is something you must plan, what you will be you must say,
Chance will never make a man, thus the thoughtless go astray.
Pleasure will not make you great. By your courage let men see
As you work and as you wait, what you've willed yourself to be.

POEMS-HOME

BY CHARLES HANSON TOWNE

"Home," by Richard Le Gallienne.

Mr. Le Gallienne has not written many sonnets, but the handful he has given us are distinguished by that grace and beauty which he puts into anything he touches. The poignant note in these lines cannot fail to strike the reader. Here is crystallized one of those supreme moments every lover knows. It is magic—sheer magic—thus to get a mood on paper for all time.

"We're going home!" I heard two lovers say,
They kissed their friends and bade them bright good-byes;
I hid the deadly hunger in my eyes,
And, lest I might have killed them, turned away.

Ah, love, we too once gambolled home as they,
Home from the town with such fair merchandise,—
Wine and great grapes — the happy lover buys:
A little cosy feast to crown the day.

Yes! we had once a heaven we called a home,
Its empty rooms still haunt me like thine eyes,
When the last sunset softly fades there;
Each day I tread each empty haunted room,
And now and then a little baby cries,
Or laughs a lovely laughter worse to bear.

Peruvian Sub Is Disabled

Being Towed By Sister Ship —No S. O. S. Call Is Sent Out

(International News Service)

NEW YORK Oct. 28.—The Peruvian submarines R-1 and R-2 reported seriously disabled 130 miles off Cape May, N. J., did not send out an S. O. S. Call last night and are in no danger of sinking, naval communications reported today. The R-1 carrying a crew of 22 accompanied by her sister ship with a crew of 20, left Newport R. I., last Tuesday fer Peru.

The distress call picked up at various costal stations last night apparently was actuated by the fact that the R-2's engine was temporarily disabled and that she was being towed by her sister ship the R-1 informed naval communications. The R-1 said the R-2 was in no danger and that her disabled engine was being repaired by the crew.

The S. O. S. call that the R-1 was in distress was believed to have been sent by the steamer Veendijk. The Revenue Cutters Gresham, Hammond and Seneca were standing by the submarine this morning after a quick dash out to sea according to reports received at the coast guard base at Cape May, N. J.

Although the S. O. S. cali was received at Boston and Philadelphia the Cape May coast guard station and naval communications here did not pick it up.

A report that one of the submarines was sinking was dispelled when the R-1 sent a wireless asking for radio compass bearings and this morning naval communications characterized the S. O. S. call as a "fluke."

Receipts of the S. O. S. call last evening resulted in a general suspension of radio broadcasting from 6:35 to 7:57 p. m.

Costive Bowels, Headache, Colds Take "Cascarets"

No Headache, Sour Stomach, Bad Cold or Constipation by morning

Get a 10-cent box now.

Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

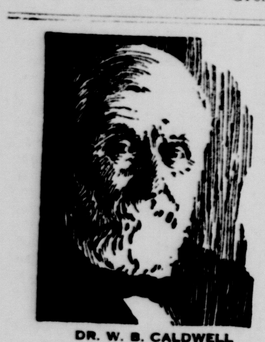

Ross Fund Now Nears $100 Mark

Ira M. Ramsey, city treasurer and treasurer of the James Ross benefit fund now being raised here for the victims of the explosion on East Lutton street last Friday, reported this morning that cash in hand amounted to $76. In addition to this there is $2 at The News Office donated by persons who desired to be known as friends, which will be turned over to him. In the report of yesterday, when the cash totalled $39, F. L. Runkle was credited with but a dollar, when he should have been credited with $5.

Donations may be made to Ira M. Ramsey, city treasurer, and those left at The News Office will be turned over to him.

Those giving donations since the previous report follow:—L. T. O'Laughlin, $1; J. P. Hervey, $1; Mrs. L. E. Gillespie, $5; Laura Warnock, $1; Mrs. L. W. Strayer, $2; H. D. Anderson, $1; M. B. DR. W. B. CALDWELL AT THE AGE OF 83

Constipation! How to Keep Bowels Regular

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated men, women, children, and particularly old folks, had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, indigestion and stomach misery, he did not believe that a sickening "purge" or "physic" was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it never gripes, sickens, or upsets the system. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Heart Beats Too Fast Blames Bad Stomach

"I had stomach gas bad, making my heart beat too fast and causing weak, nervous spells. Adlerika relieved me right from the first dose." —L. Smith.

Adlerika is a compound of the best saline intestinal cleanser with glycerine, buckthorn, cascara and other gas-expelling and detergent elements. It is excellent for Intestinal Stasis, a disease due to modern ways of living and which is often the true cause of sour stomach, gas bloating, nervous dyspepsia and restless sleep.

Unlike most medicines, Adlerika acts upon BOTH upper and lower bowel, giving the intestines a REAL cleansing and bringing out old poisonous matter you never thought was in your system. Even if bowels move daily, you will be surprised how much more old matter Adlerika brings out which may have been causing all your trouble. In slight disorders, like occasional constipation, GAS bloating, indigestion or sick headache, ONE spoonful always brings relief.

Doctors Praise Adlerika

Dr. H. L. Shoub, New York: "Adlerika, in addition to its intestinal cleansing, checks the growth of intestinal bacteria."

Dr. A. C. Curl: "I prescribe Adlerika with highly satisfactory results."

Dr. J. Weaver: "In my 50 years' practice, I have found nothing to excell Adlerika."

J. E. Puckett: "After using Adlerika, I feel better than for 20 years. Awful impurities were eliminated from my system."

Dr. F. M. P. (name withheld by request): "I use Adlerika in all bowel cases. Some require only one dose."

No matter what you have tried for your stomach and bowels, Adlerika will surprise you. In New Castle at Love & Megown's and leading druggists.

New York Police Shoot Man After Attack On Woman

Man Fleeing Scene Is Shot And Killed By Officers Early Today

(International News Service)

NEW WORK, Oct. 28.—Police touring the Upper East Side in quest of John J. "Bum" Rodgers, notorious outlaw, early today shot and killed an unidentified man as he was fleeing the scene where a woman had been attacked.

The police were drawn to the section by reports that Rodgers intended paying a visit to his old haunts. They heard a woman scream and investigating they found a woman who gave her name as Mrs. Edith Baber, 33 who said she had been dragged into a hallway and severely beaten. A suspect in the neighborhood refused to halt on police orders and shooting ensued. A revolver was found near the body of the man killed.

In the past 15 years the population of the Irish Free State has declined from 3,139,688 to 2,972,803.

Suggests Henry Home Children Use City Home

Councilman Louis Genkinger is in favor of permitting the Margaret Henry Home to be moved to the city farm, vacated when the county of Lawrence assumed control of the local district of the poor.

He says that the farm is far more advantageous for the charges at the Henry Home than the present institution.

Genkinger is in favor of permitting the Margaret Henry Home to take over the municipal buildings and occupy it until the city has decided to dispose of the farm and buildings.

He believes the children now residing at the Margaret Henry Home would have better places to romp and play, better air and that they could go to a nearby school.

Genkinger and colleagues as yet have not formerly discussed disposition of the municipal farm.

PUBLIC UTILITY SECURITIES

—the Popular investment medium of the American people.

Of all forms of income investment, the American people have learned that Public Utility Securities offer exceptional advantages—combining safety, generous yield, dependable collateral value and a good market. There are now more than 2,500,000 individual holders of public utility securities in the United States.

It is interesting to know that the large insurance companies, who are most careful and conservative about the investment of their funds, own in excess of $2,000,000,000 worth of such securities. The Metropolitan Life Insurance Company alone, owns $75,000,000 worth of the securities of light and power companies. Does not this speak well of their value?

Let us explain our customer-ownership plan—we can help you build up an investment income that will be a source of ever-increasing satisfaction and profit.

New Cemetery Is Latest Addition To County Home

Will Be Located On Land Acquired By The County For Erection Of Buildings

County Engineer C. H. Milholland is staking out a cemetery to be used at the county poor farm.

It is to be located on the north side of the tract of land purchased for the home and will be used for the purpose of burying indigents who die at the farm and whose friends are unable to bury them.

County commissioners report that the different townships and boroughs are now turning over their poor to the home. They are coming in about as fast as they can be taken care of.

Since the county took over the different poor districts, M. B. Hogue, outside relief agent, has been busy investigating the different cases where relief was being furnished in homes. This practice will be kept up by the county where it is believed that circumstances warrant.

There are quite a number of families, where a small weekly allowance will keep the members together and at much less expense than they could be kept at the home. As the home does not take children, it is necessary to provide homes for the children where families are broken up.

Names Committee For Legion Drive

Perry Gaston Post To Launch Campaign In Immediate Future

Plans for one of the most intensive campaigns that has yet been held are in a stage of formation with Perry S. Gaston Post, No. 343, American Legion.

General Chairman Ivor V. Davis, last night named his committee composed of Harold Blewitt, Bernard Hook, William Fleming, Phil Greer, DeGraff Robinson, Edwin Hoye, Wilbur Hughes, George Kuech, Ivor Richards, and Frank Natale.

The first meeting of the committee will be held in the Legion Home on Friday evening at 8 o'clock, at which time plans for the drive will be perfected. It is planned to get the campaign under way as soon as possible as dues are payable now.

Pinchot Appoints Newspaperman To Commission Post

Philadelphia Newspaperman Given Position On Public Service Board

(International News Service)

HARRISBURG, Pa., Oct. 28. — Appointment of another man to fill the one existing vacancy on the Public Service Commission today was expected to be made before the end of the present week. Gov. Gifford Pinchot last night named Richard J. Beamish, Philadelphia newspaperman, to the vacancy caused by the resignation of Richard W. Martin, who was appointed a judge in Allegheny county.

Beamish, the Governor said, in announcing the appointment, is "militantly for the people" while the other commissioners he charged are "hopelessly controlled by the Public Utility Companies" and "militantly active for the corporation."

The Governor expressed pleasure in Beamish's acceptance of the offer not only because of his experience in newspaper work and as a lawyer but because he "will bring to his work the firm determination to be fair to the people."

The attitude of the additional commissioner to be named this week "toward the rights of the people will be the same," Pinchot said.

The newly appointed commissioner yas expected in Harrisburg today to take over his duties at once.

Hundred Couples Attend Masquerade

New Castle P. H. C. Inaugurates Season With Successful Party

With every indication of a delightful social season the initial Halowe'en masquerade held on Wednesday night by New Castle Circle, No. 5, P. H. C., was attended by 100 couples of mummers of every description.

Ellwood, Sharon, Pulaski and Freedom sent a bunch of funmakers, which included "Uncle Kupsa boasting" and "Aunt Hepsy", who mingled with folly, coons, Turks, ladies of the harem, Hawaiian girls, night and morning, America and Uncle Sam. The queen of hearts simply played mischief with the devil and one lung from China made desperate Chinese love to a cute little baby doll. Some of the costumes were very beautiful, while others so wonderfully constructed they are beyond the description of the writer.

The bride and groom from Sharon made a big hit, but the flapper who carried the bird cage containing a string of hot dogs is a mystery yet to solve.

The dance was under the auspices of the "Boosters' Club", composed of past presidents of the Circle, and they certainly made no mistake in securing the Fitzgerald orchestra of musicial wonders for the big noise.

The ladies of the club had charge of the checkroom, with the committee of arrangements included. Past Presidents Roy Irwin, Leonard Dandy, Frank Kennedy, John Cunningham and Howard Richards.

A feature of the event was the splendid vocal numbers contributed by Mrs. Lula Fowler of Sharon, accompanied by the orchestra.

The judges of the best characters were Deputy Marie Purdy, John Vandine and J. B. Depue, Freedom, Mrs. Lula Fowler, Sharon, and Robert R. Beerkholz, New Castle, who awarded cash prizes to Katharine Badger, flapper on wheels; Ethel Kay, ballet girl; Lew Whittaker, One Lung, Chinaman; Mae Musiol, mystery; Goldie McGregor, Minnie Ha! Ha!.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but is beats them all for quick results.

Thousands of housewives have found how to save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for results. It gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified honey, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract and palatable guaiacol, known the world over for its healing effect on membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Are You "Toxic?"

Good Health Requires Good Elimination.

FUNCTIONAL inactivity of the kidneys permits retention of waste poisons in the blood. This is called a "toxic condition." Symptoms are a dull, languid feeling and often toxic headache, backache and dizziness. That the kidneys are not functioning as they should is sometimes shown by scanty or burning passage of secretions. Many people assist their kidneys in this condition by drinking plenty of pure water and the use of a stimulant diuretic. *Doan's Pills* have earned a country-wide reputation as a stimulant diuretic to the kidneys. Users everywhere endorse them. *Ask your neighbor!*

Just the thing for thin weak sickly children

YOU ARE INVITED AT OUR EXPENSE TO MAKE THIS TEST TODAY

From childhood to ripened maturity—no matter what your age may be or how many treatments you have tried without success—if you are thin, weak, pale or frail; if you are constantly handicapped by Ill Health and lack of ambition and vigor—you are urgently invited to make a 30-day test of McCoy's Tablets **without the slightest risk of cost** unless wonderfully pleased with results.

All druggists are authorized to promptly refund money to any purchaser not fully satisfied with results after 30 days use of McCoy's Tablets. Box containing a 10-day supply costs only 60c—start the test today.

NOTE: To fully realize the value of this test, please weigh yourself and take a careful inventory of your condition before starting to use McCoy's Tablets—then, at the end of 30 days, weigh yourself again. This method furnishes absolute proof of results.

THIN, WEAK KIDDIES MOST EASY VICTIMS OF DISEASE

Low Vitality Means Low Resistance Much Ill Health of Later Life Traced to "Sickly" Childhood

MOTHERS SHOULD READ THIS AND FIND OUT WHAT TO DO

No matter how much they are cared for it seems almost impossible to keep sickness and disease out of the lives of some children. Every contagion that comes along, from Whooping Cough to Diphtheria, stop at the same homes over and over again.

This well know fact is "a thorn in the flesh" of thousands of anxious mothers, who—with premature wrinkles and gray hairs—bravely pay the price of daily work and worry over the frail and weakened bodies of those they love.

From birth until the early teens—"the days of childhood are dangerous days". Nature tests the vitality of most children many, many times. Those with strong, well-developed bodies usually "pass with flying colors"—while those who are weak and puny, thin and sickly are forced to fight every inch of the way.

Any good Doctor will tell you the dangers of childhood's low-vitality and underweight—and thousands of good mothers WHO KNOW FROM EXPERIENCE, can tell you of the wonderfully quick and lasting value of McCoy's Cod Liver Oil Compound Tablets. Just think of it—all the old time, world known value of Cod Livers—in tiny tasteless tablet form. As easy to take and give as candy — but containing the Health, Strength, Weight, Bone and Muscle value for many years attributed to nasty, "smelly", stomach — turning Cod Liver medication. At all good druggists, 60 tablets, 60c.

FOR KIDDIES WHO NEED STRENGTH AND MORE WEIGHT

Safe, Pleasant Home Treatment Recommended By Doctors Quickly Gives Strength and Weight, Healthy "Pep" and Color

For children who are weak and "puny"—pale, frail and underweight—there is nothing in the world so good as the strength and body building power of Cod Liver Oil.

The truly great value of Cod Liver Oil has been known for hundreds of years—but its horrible stomach turning, "fishy" odor and taste has always restricted its use.

Now, however, you can give the kiddies Cod Liver Oil Compound Tablets—tasteless and as easy to take as candy—and watch them thrive and grow. Praised by Doctors, Druggists and Fathers and Mothers—McCoy's Cod Liver Oil Compound Tablets are daily used from coast to coast—and children everywhere who have used them have gained in strength, vitality, health, muscle and weight!

One mother writes, "My little girl, 12 years old, has taken almost three boxes of McCoy's tablets and has gained 12 pounds. I am certainly pleased with the results". A father writes, "My son was ill and under the doctor's care. He was underweight, and nothing we did seemed to help him in gaining weight. A friend gave me a box of McCoy's Cod Liver Oil Compound Tablets and urged that they be given a trial. After taking them for two weeks he gained eight pounds". A sealed package of McCoy's Tablets can be obtained from any good druggist on a binding guarantee of money back if not fully pleased with results. So, if you or any of the kiddies are underweight and lacking in "pep" and strength, why not try "McCoy's" today. You must be delighted with results or the test will not cost you a penny!

JUST THE THING FOR WEAK KIDDIES AND GROWN-UPS TOO

Safe and Pleasant Home Treatment Quickly Gives More Weight, New Strength and Vitality

Reports From Users Everywhere Furnish Amazing Evidence

For children as well as "grown-ups", the swift and certain power of Cod Liver Oil to build up weight, strength, bone, muscle—and to fortify against disease—has been generally conceded for years.

The difficulty has always been that "the treatment was worse than the trouble". The very thoughts of the smell and taste of Cod Liver Oil will make most people sick. Now, however, the amazing genius of Paul McCoy has given the world the well known strength and body-building value of Cod Liver Oil—in tiny, tasteless tablet form that cannot upset the stomach.

Used and recommended by doctors and joyfully praised by thousands of fathers and mothers, McCoy's Cod Liver Oil Compound Tablets—as easy to give as candy—are just the thing for children who lack vitality and need to gain in strength and weight.

One father writes: "Starting with a very much rundown condition, my little girl has gained six pounds after 30 days' use of McCoy's Tablets". A grateful mother says: "My little girl has been an invalid for nine years, before I started giving her McCoy's Tablets. She gained slowly at first, but now has gained seven pounds, is feeling very much better and going to school every day"."—This is remarkable evidence!

How about your boy or girl, and how about yourself? Do they or do you lack the few pounds of firm, healthy fat needed for perfect health, strength and vitality? If they or you are under par—why not try McCoy's Tablets today? Any good druggist will supply you—60 tablets, 60c—and will gladly refund even this small cost if you are not fully pleased.

McCoy's COD LIVER OIL COMPOUND Tablets

For sale at McKee's Kut Rate Store, Love & Megown, Eckerd's of New Castle, Inc. and good druggists everywhere.

Report Quake Is Felt At Toledo

(International News Service)

TOLEDO, O., Oct. 28.—Reports of what they believed to have been a brief earthquake shock which they felt here early today, were made by employes of several Toledo railroads, stationed in signal towers. The reported shocks, according to the towermen, were felt at several widely separated points in the city and suburbs.

Verification from any other source was lacking, however, and no reports were received early today, according to police, of an explosion any where in this vicinity which might have caused the shocks. Two distinct shocks were felt, the towermen reported, at about 2:45 a. m.

The destiny of America's great men was formed by the planets, assisted by formalities in the woodshed.

Our theory is that Mr. Rickard could make some of those European duels pay good money.

Baseball cost the nation many millions this year, but St. Louis got that much joy out of it.

New Castle Resident Says It Saved Her Life

"World's Tonic did for me what I thought was impossible; in fact, I have every reason to believe I would not be alive today if I had not taken it," said Mrs. Anna Mathew, 414 Martin street, this city.

"For nearly nine years I had suffered from stomach trouble and along with it, neuritis. Gas and nausea troubles me greatly, and I often had severe pains in my arms and legs. Frequently, a numb feeling would pass over my entire body. For two years I was unable to do my housework.

"World's Tonic has given me a wonderful appetite and digestion the pains and numb spells have gone, I sleep restfully, and feel built up generally, all of which I credit to the use of the World's Tonic treatment. It has been a wonderful thing for me, and I shall always feel grateful."

It is for sale by all good druggists. Accept no substitute. World's Tonic is for sale at Paisley's, Smith's, McKee's Kut Rate, and Eckard's Inc. of New Castle, and all other first class Druggists. $1.00 a bottle.

Chrysler Reduces Prices On All "60" Closed Models

Substantial price reductions in the prices of all enclosed cars of the Model "60" Chrysler are announced by the Chrysler Sales Corporation, effective as of October 9th.

These reductions are $40 on the club coupe, $50 on the coach and $50 on the four-door. The new f. o. b. Detroit prices of these cars are $1125 for the Club Coupe, $1145 for the Coach and $1245 for the Sedan. The touring model is priced at $1075 and the roadster at $1145.

"These changes in price are made possible because of the record breaking production of Chrysler products in answer to the greatest demand ever known for them. Not only have deliveries to the public of the Chrysler '60' alone exceeded $35,000,000 in the less than six months since its introduction but shipments on all four Chrysler models continue at the highest point in the history of the company", according to J. E. Fields, vice-president in charge of sales of the Chrysler Sales Corporation.

The demand for Chrysler cars has grown so rapidly that this company has gone from eighteenth place three years ago to fourth today among manufacturers in the National Automobile Chamber of Commerce.

"The operations of Chrysler's plan of standardized quality have been greatly responsible for the tremendous value in Chrysler production", points out Mr. Fields. "We have stressed right along the fact that our standard quality program means greater quality at lower cost in each of our four cars—the '50', '60', the recently announced new and finer '70' and the Imperial '80' alike, because standardized quality eliminates the element of 'purchaser's risk' through the exclusion of chances in production and because of the assurance that all Chrysler cars, designed and engineered by our own experts, are built to one standard of quality.

"Chrysler now occupies the most enviable position in the motor car industry", concludes Mr. Fields. "That the public appreciates the many features of fine quality is shown by the ever growing demand and splendid sales increases which have resulted in our record-breaking rise in short order to fourth place among National Automobile Chamber of Commerce motor car manufacturers".

The Chrysler automobile is distributed in New Castle by The Chambers Motor Co., 426 Crown avenue.

Druggists Have County Conference

Representatives Of Ten Counties Gather At Grove City

SCOTT PAISLEY AS PRESIDENT PRESIDES

Druggists of the Northwest Pennsylvania Druggists' association met in Grove City Wednesday afternoon and evening, October 27, for a conference, with President Scott Paisley of New Castle presiding. In all, ten counties were represented, the number in attendance being about 150.

Congressman Clyde Kelly of Braddock, Pa., was the chief speaker of the evening, and his address was in explanation of the Kelly-Capper bill which he hopes to have passed in congress at the next session. It provides for the abolition of cut rate piracy in retail stores, by allowing the manufacturer to regulate the retail price of an article. The address was a usual Kelly oration, interesting, intelligible and interspersed with wit. He was given a tremendous ovation by the druggists present.

In addition to President Scott Paisley, New Castle was well represented. They were John B. Haley, S. Reed Megown, J. Myron Rice, Perry L. Kerr, Carl Paisley, Fred Hyde, George L. Smith, J. Ed Duff, John Wajert, William Frantz, Earl Douglas, Harry Lusk and Attorney Rufus C. McKinley. Special guests at the banquet were Dr. J. Howard Swick of Beaver Falls, Attorney Thomas C. Cochran of Mercer and Bart Richards of New Castle.

Nurse May Soon Know Her Fate

(International News Service)

MORGANTOWN, W. Va., Oct. 28.—Opposing counsel completed their argumentation at the trial of Mrs. Georgia Ridgeway today and the fate of the nurse accused of slaying Dr. W. B. Borror was expected to be placed in the hands of the jury this afternoon.

Little substantial change in the status of the case was seen following introduction of rebuttal testimony, the state maintaining that Mrs. Ridgeway stabbed Dr. Rorror, her employer, with a bread knife during a fit of jealousy and the defense alleging that Dr. Borror committed suicide following a quarrel with his nurse.

New School Orchestra And Band Are Being Developed This Year

At the first football game between New Castle and Mars, the people were commenting on the band, in comparison to other years. Now with the season well under way there is a great change in the playing of this group of boys. The music teachers of the school, think that the band and orchestra, will be as good as ever.

Practically a new band and orchestra have to be developed every year, with approximately one third of the old members gone from the previous year.

For instance at the first game, in the cornet section the two solo cornet players had never before acted as such. There was only one bass player and he had never before played bass horn. Three out of our trombone players were having their first engagement with the band, and also three drummers. Folks who hear the band and orchestra of the school naturally do not consider that schools are schools, and as such are training players who come into the schools with no knowledge of instrumental music and graduate each year at the highest stage of their development in the local schools. It can never be expected that early in the year the instructors can have as fine organizations as are developed after months of practice later on in the term.

Many of the boys and girls who go up to the school, are ambitious to get into the band or orchestra, and have had no previous training. It is a great disappointment for these to be turned down. This is particularly true of saxophone players. It is necessary to turn down several of these applicants because they fail to enroll in Junior orchestra or some preparatory organization. It is therefore advisable to those desiring to enter the association to join the orchestra or band in their respective schools.

The total membership of both the band and their orchestra runs between fifty and sixty each year. With one third of these graduating every year, it is not hard to see that it takes hard practice and study to get them well under way the following year.

This year it was necessary for the band to purchase five additional uniforms. The entire cost of uniforming the band has been covered by the student fund of the music department. About thirty five instruments have been acquired through this fund. It is made possible by contribution of clubs, and playing for class or school plays.

It is the aim of the music department to play only for those community engagements where funds are not available for hiring of professional organizations.

The members of the band and orchestra this year are as follows:

Band Members

In a single year more than 78,000,000 rabbit skins, valued at nearly $12,500,000, were exported from Australia. These figures do not include the large number of skins utilized locally, nor the value of rabbit flesh as food.

NO SHORTAGE OF GASOLINE

Fears That Motor Fuel Supply Will Not Last But Few Years Groundless

(International News Service)

CHICAGO, Oct. 28.—Fears that the gasoline supply of the nation soon will not be equal to the demand are groundless, W. S. Farish, president of the American Petroleum Institute, told members of the Institute of American Meat Packers at their annual meeting here Wednesday.

"Our conservation commission reports in sight a reserve of four and one-half billion barrels, equal to several years' demand," Farrish said. "This reserve is greater than at any time in the history of the industry and I personally see supplies of motor fuel for generations to come."

ADVERTISERS SPENT $300,000,000 LAST YEAR, EXPERT SAYS

CHICAGO, Oct. 27.—More than $300,000,000 was expended in advertising in the last year through advertising agencies, publishers of the nation were told today by James O'Shaughnessy, executive secretary of the American Association of Advertising Agencies. The association was a luncheon host to delegates to the national gathering of the audit bureau of circulations.

Cyrus H. K. Curtis, Philadelphia publisher, speaking on the virtues of readability in advertising copy said:

"Advertising may be so fresh and newsy that readers will look for it every day. A style that makes advertisements sought for by newspaper readers make advertising pay."

TRUTH ABOUT TWINS IS AIM OF RESEARCH

CHICAGO, Oct. 28.—Three University of Chicago professors are going to get to the bottom of the twin business. They are calling for adult twins, and especially twins that have been reared apart. This is to determine whether hereditary traits or environment and training are more powerful.

There are two kinds of twins, identical and fraternal, the professors point out. Particularly are identical twins, reared apart, under differing environment conditions, wanted. Identical twins, it is explained, come from single egg. Thus, any departures from exact identity of such twins may be taken as evidence of the disturbing or modifying effects of environment.

The three scientists who form the twin research team are Prof. Newman, F. N. Freeman and Prof. K. J. Holzinger.

LAWLESS HUNTERS GIVEN BIG FINES

BUFFALO, Oct. 28.—Pheasant is expensive eating for those who hunt outside the law, according to fines cited by Conservation Inspector Morris W. Brackett yesterday.

Two Buffalo huntsmen, Louis Piccioli and Romeo Battaloni, paid $102.50 each for taking more than three birds last Thursday; another man, Edward Kurczewski, of Erie, Pa., was fined $75 for hunting without a license, in default of which he will spend 75 days in jail, and three nimrods from Syracuse took the violation count to the tune of $60 each.

The Odds

are against young men who are living this month on next month's pay.

Some of these days you will run into a real opportunity which requires a little cash to handle, and, as the saying goes, you will be "out of luck."

If you go to the trouble of investigating the early careers of men who are in prosperous circumstances today, you will find nearly always that they had a Savings Account instantly ready to take advantage of opportunities when they came.

Don't think this is mere preaching. It is an absolute truth, and young men who fail to heed this advice will live to admit the error of their careless spending.

Croton Boy Scouts Issue Challenge

The Croton Boy Scouts held their meeting at the Croton School at 7:30 with all scouts present. Tony Colaluca, committeeman and Ralph F. Davis, Scoutmaster, presided.

Thursday, October 28, the boys of this troop are to go to the Scottish Cathedral, at 5:30, to help in the check rooms and to aid in the traffic regulations. All the boys are busy getting ready for the Scout Round-up, also, for a Marathon Race to be held Thanksgiving Day. A fire-by-friction contest was held last night with Frank Fiorrelli winning first, Armondo Latavo coming second, and Walter Kerr a cloes third.

The next meeting of this troop will be held at the regular meeting place, the Croton School. James Maloney is to act as Scoutmaster, at this time, and Frank Fiorrelli in the capacity of committeeman. These boys are to prepare a program for this evening.

It will be of interest to other troops to know that this troop issues a challenge to any troop in Lawrence county for contests in the following activities: knot tying, semaphore and wig wag signaling, fire-by-friction, first aid and rope whirling. Any contenstants please notify Scoutmaster Davis, or in some way let the troop know of your intentions and desired activity.

STOMACH UPSET

Get at the real cause. That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods. Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color. They do the work without griping, cramps or pain. All Druggists.

Take one or two at bedtime for quick relief. Eat what you like. 15c, 30c, 60c.

Women's Winter Coats for Dress and Sport

There is Plenty of Coat Variety Here—At Any Price You Wish to Pay—Your Coat is Ready For You.

We have so many coats that it will be no problem to find just the one you want, whether it be fur trimmed or plain tailored, sport coat or dressy model. Every coat has been carefully selected from among hundreds to bring to the women and girls of New Castle the very best values and styles to be obtained. All the new style features are here such as the blouse back, novel tucking or seaming and side panel treatments.

SPORT COATS
DRESS COATS
STREET COATS

$38.00 $68.00 $98.00

At these prices we have coats to suit the most fastidious. Coats of beautiful plaids—each shipment seems to bring in prettier ones than the one previous—all models beautifully lined, some with silk in one and two shades, others with kasha or wool plaid. You will want coats such as these for wear to the football games, with their lovely fur collars. Some have fur cuffs, too.

Many of the coats of plain materials are stitched and embroidered with silks of contrasting color and tinsel. Colors are gorgeous; very gay, some of them; others subdued, while many conform to the demand for tailored and dignified street wear.

$18.00 $28.00

Very wonderful values in coats at these prices for sport or dress wear, in plaids, diagonals and mixed or plain. Your choice of fur trim or tailored styles. Some have leather belts and fancy pockets. All nicely lined. Very unusual values.

Among these is the reversible model of broadcloth, lined with leopard cloth, to be worn either side out. Something entirely new.

Arctic Romance Is Revealed In Divorce

(International News Service)

ST. PAUL, Minn., Oct. 28.—The scuttling of a romance of Alaskan trails and gold camps has been revealed in a common divorce complaint on file in district court here.

It involves the stealing of the young wife of a sourdough by a sheik of the northlands known only as Handsome Harry, a story which might have inspired a Robert W. Service poem or a tale by Jack London.

It is the story of a mad hunt for hidden gold in the frozen wilds, successful strikes, the blooming of young love, companionship of a young couple in search of more gold and happiness, followed by desertion, heartbreak and despair.

Thomas DeCamp after 13 years is suing Mary Campbell DeCamp for a divorce. She may be dead for all he knows, but he desires his legal freedom.

He left the Twin cities 25 years ago to seek his fortune. He found it in Alaska and also found the love of Mary Campbell, whom he married. Then he lost a good part of his fortune and also lost all of her love.

DeCamp met Mary at Fairbanks, Alaska, and in March, 1904, they were married by a United States commissioner. Together they roamed the frozen wastes from Fairbanks to Clarey City to Otter Creek, Golden City and Ruby City and other points, seeking always more gold.

Then out of the cold one day there swaggered Handsome Harry—he was known by no other name in the gold camps. Perhaps Mary was weary of the gold trail, perhaps she longed to return to the cities with their bright lights and entertainments. At any rate, her husband charges, she disappeared one night with Handsome Harry.

For several years DeCamp deserted the trail of gold to follow another trail, but he never succeeded in overtaking his errant wife and the handsome home-breaker. With his life looted of love his gold meant little, DeCamp said, and gradually his pokes of dust grew thinner and his fortune dwindled.

Now he has even been robbed of his old Alaska for the railroads have spread their civilizing steel bands into the wastes he once roamed and it "became crowded" up there in Alaska so he has returned to the twin cities where he is visiting with a daughter by an earlier marriage.

AMBERLEY CASTLE SOLD, ANCIENT GHOSTS AND ALL

LONDON, Oct. 28.—Amberley Castle, in Sussex, one of the few remaining corners of mediaeval England, in the ruins of which for centuries ghosts have been reported to prowl about on stormy nights, has been sold by the Duchess of Norfolk, who has made up her mind to get rid of all the eerie things on her estate of some 50,000 acres.

The purchaser of the haunted castle, the original walls of which are mostly in ruins, is Mrs. Mary Emmett, daughter of Sir Rennel Rodd, who has a love of ancient architecture. She plans to restore a nook of the castle as a home. She is a non-believer in ghosts and has confided to friends that she got the "ancient pile of ruins at bargain rates".

Dairy Employee Found Slain At Harrisburg, Pa.

Man Badly Beaten And Bruised Found Dead Near Place Of Business

(International News Service)

HARRISBURG, Pa., Oct. 28.—Beaten and bruised, the body of George Cordell, 50, stable boss at a local dairy, was found in an areaway at the dairy early today. Police said that Cordell apparently had been beaten with a club and then dragged into the areaway by his slayer.

Martin Nissley, proprietor of the dairy, found the body lying on its back with arms and legs crossed and a hat over the face.

Police, investigating the murder, found a pool of blood and signs of a scuffle a short distance from the dairy. They believe that Cordell met his death at that spot and then was dragged to the building.

It souds untrue, but building cars near the ground increases the turn-over.

I am Happy

So I try to bring new joys to millions

By Edna Wallace Hopper

I have had a glorious career, and am still a stage star whom thousands daily flock to see. Yet I have spent 40 years in the limelight, and now belong in the old-lady class.

This I owe to matchless beauty helps I secured in France, and I now go there every year to keep in intimate touch with the latest beauty discoveries. Those helps made me a famous beauty, and they've kept my beauty to a grand old age. I still look a girl of 19.

One is my Youth Cream. It combines many factors in one application. These include products of both lemon and strawberry, also all the best helps science knows to foster, feed and preserve the skin. My baby-like complexion shows what that Cream can do.

It comes in two types—cold cream and vanishing. I use one at bedtime, the other in the morning. Never is my skin without these helps. I know that millions of girls could multiply their beauty by simply applying Youth Cream. And women could keep their youth, as I do. It does a dozen things at once.

The coupon will bring you a sample. Enough to show you how this Cream excels. Try it for beauty's sake.

For Trial Tube sco of Youth Cream mail this today to Edna Wallace Hopper, 536 Lake Shore Drive, Chicago, Illinois.

World War Vets Have Celebration

Ex-Servicemen Enjoy Get-Together At Legion Home On Wednesday

Navy Day was celebrated by the veterans of the World War here with a Get-Together held at the Legion Home on Wednesday night, and as you might expect there was action.

The assembly room of the Home was filled with men who had served in various units of the service during the war, and from 8 o'clock till close to midnight there was something doing.

Emrys Davis and Joseph Kern and Harley Shoaff were the entertainers of the evening, the first named being a tenor soloist, the second a violinist and the third a jazz pianist. Their numbers got over, and following them, the chairman of the evening, Ivor V. Davis led some group singing.

There was no program of addresses, none are needed at that kind of a gathering. The Mess Committee was on the job with a tasty lunch and smokes, and the evening went off in a pleasant manner.

Suit For Commission On Real Estate Sale

The case of George W. Fisher against Theodore G. Talla and Theodore I. Pappas of Ellwood City is on trial before Judge Hildebrand today. The case is one in which Fisher is claiming a commission of $1,000 on the sale of a business property in Ellwood City. Defendants refused to pay on the grounds that Fisher had not been directly responsible for the sale.

John A. Jackson Goes To Akron, O.

Becomes General Secretary Of Akron Knights Of Columbus Council

John A. Jackson, vice president of the Lawrence County Baseball league and formerly connected with the B. and O. railroad left today for Akron, O., where he has accepted a position as general secretary of the Akron Council, Knights of Columbus.

Mr. Jackson through his association with amateur sports in New Castle has gained a wide reputation and is well known to countless hundreds of persons in and out of the sport world. Mr. Jackson was born and raised in New Castle.

Ever since the organization of the Lawrence County league four years ago Mr. Jackson has served as vice president and official and "Johnnie" as he was familarily known has served the league with a real interest, he was also active in the organization of the league that has had a wide growth in the past few years and the departure of Mr. Jackson leaves a place hard to fill.

Mr. Jackson in 1919-20 held the office of Grand Knight of the St. Mary's Knights of Columbus and in 1924-25 served as Lecturer of the local organization in which capacity he created a splendid record.

In his new position at Akron Mr. Jackson will have charge of all social, welfare and athletic activities of the Akron council which is one of the largest in the state of Ohio and has an enrollment of some 1,000 members. The Akron council only recently added a $100,000 auditorium to their building making it one of the largest in the state.

Mr. Jackson stated today that he regretted leaving New Castle and his many friends here and said that he would always keep a warm place in his heart for the "old home town."

Miners Given Wage Increase

Operators In Westmoreland County Coal Fields Grant Miners Increase

COAL PRICES MAY REACH $12 TON

(International News Service)

GREENSBURG, Pa., Oct. 28.—With retail coal prices raised to $9 a ton and a $12 mark said to be in sight, coal operators in the Westmoreland county field posted notices of increases in wages of all mine employes. Their action followed a similar step by the Pittsburgh Coal company.

Ten thousand miners in the immediate vicinity of Greensburg, in the Irwin gas coal field, and the upper Connellsville district will be benefited by the new wage scale, which becomes effective on November 1.

The notice posted by the Keystone Coal & Coke company and other operators of the district stated: "Extraordinary demand for coal shipment to foreign countries has been responsible for a change in the market, which for the present, give us the opportunity of advancing our wage scale. This change will be effective on November 1. The new scale will be announced later."

Among the companies posting notices of increased wages are the Keystone company, Greensburg Coal company, Irwin Gas Coal company and the Berwins White Coal company. Operators in the Adamsburg-Irwin-Hermine section were expected to meet the new scale. The Delmont Gas Coal company riased its scale some time ago.

Your life isn't a failure unless you'd hate like thunder to have tomorrow be like today.

FIRE CAPTAIN IS KILLED AT JOHNSTOWN

(BULLETIN)

(International News Service)

JOHNSTOWN, Pa., Oct. 28.—Fire Capt. Jacob Grafe was killed and three other firemen were injured today while fighting a blaze at the Haws Refractories Company plant here. When the roof of the building collapsed the four firemen were hurled into a freight car. Captain Grafe died a few hours later from a fractured skull.

Fireman John P. Klink was taken to a hospital suffering from internal injuries and shock. Assistant Chief John Moran and Fireman John Keysel escaped with minor injuries.

Damage to the plant was estimated at several thousand dollars. Cause of the fire has not been determined.

Dr. Griggs Gives Talk On Venice

Tells Woman's Club Of Unique City In Lecture Here On Wednesday

In the Highland United Presbyterian church Wednesday afternoon Dr. Howard Griggs continued his series of lectures under the auspices of the Woman's Club.

He said, in part:

"No matter how many visits one may pay to Venice, one always has the impression of it being entirely different from any other city—in fact, weird.

"The city was born on these mud islands by reason of the people fleeing from barbaric invaders to a place where they could protect themselves. The lagoon is protected by a big sea wall and this made the islands practically unconquerable. Settlers drifted to these islands and in time a powerful city with merchant princes as the ruling power, grew up. When Charlemagne was king Venice ruled all the adjacent islands.

"It was practically an oligarchy in its government, with a Doge at the head of it. Next in power to the Doge was the Great Council, then the Senate and then the Ruling Ten.

"Venice was at the height of its power in the middle of the 15th century. It was the one supreme power on sea in the western world.

In painting and sculpture the glory of Venice came in the late Renaissance. Her art was never spirited. It was always for adornment. She brought art from all the different countries on her ships, assimilated it and made it her own.

Her most famous painters were Titian, Tintorreto, Giorgione and Paul Veronese. Titian was the finest of them all and lived to be 99 years old. His work was wholly under the influence of Venice in the beauty of color and form.

"From the Venetian art one never gets the deep spiritual inspiration one finds in Florence.

"Venice was finally captured by Napoleon, who carried off many of her art treasures. Some of these, such as the bronze horses in front of the church of San Marco, were brought back. Later Venice belonged to Austria and finally became a part of Italy.

"There is a minor chord in Venice that most people do not realize—a chord that makes one think of those who have rotted in dungeons beneath the level of the sea or in lead ceilinged rooms at the top of the ducal palace. Browning is perhaps the only poet who has caught this and made it an appeal of beauty and charm.

"In the pictures we journeyed through the different canals of the city sightseeing.

"The ducal palace dates from the 14th and 15th centuries and is a repository of the finest in art.

"The church of San Marco is a blending of architecture borrowed from all countries, done so well that it is most beautiful. The square in front of the church has always been the central meeting place of the doves and populace. The church dominates the entire city. It has been decorated by the finest artists of the time and much mosaic work such as we found in Ravenna is here. Here, too, the mosaic tells an entire story in one picture.

"Our day in Venice ended with the beautiful sunset over the lagoon, showing up the ducal palace, the San Marco church and the Campanile. It is indeed the city of golden dreams."

The last lecture in this series by Dr. Griggs will be on Florence, and will be held next Wednesday afternoon at 2:30 in the Highland U. U. church. These lectures are given under the auspices of the Woman's Club.

The memory is said to be stronger in summer than in winter.

Girl Scouts In Annual Session

(International News Service)

PITTSBURGH, Pa., Oct. 28.—Delegates to the seventh annual conference of region three of the Girl Scouts of America divided into two separate meetings here today to conduct an intensive training course for council members and to teach methods for lone troop leaders.

Pennsylvania, Delaware, Virginia, Maryland and the District of Columbia are included in region three. Mrs. Frederick Eddy, New York, chairman of the national field committee conducted the training course for council members at one meeting. A class in methods for lone troop leaders was conducted at the other session by Miss Mabel Moore, of Pittsburgh.

Mrs. Vance McCormick, Harrisburg, is chairman of region three.

Non-Union Miners Ordered On Strike

(International News Service)

DUBOIS, Pa., Oct. 28.—In an effort to bring back to the union ranks many of the miners who dropped out when a number of western Pennsylvania bituminous coal companies repudiated the Jacksonville wage agreement, John Brophy, president of district No. 2, United Mine Workers, today issued a strike call, effective November 1, to all non-union mines in this district.

Because of the sudden renewal of activity in the mines of this and neighboring districts, the union hopes to place all miners who answer the strike call with coal companies who stood by their union agreement, relieving an acute shortage of labor.

Democrats File Expense Sheets

(International News Service)

WASHINGTON, Oct. 28.—The Democratic national committee today filed a pre-election expense statement with the clerk of the house showing disbursements of $30,308.39 and contributions of $29,542.94 in the campaign between September 1 and October 22. Because of a previous balance in current funds, a surplus of $9,725.51 was indicated.

The Democratic statement, submitted by Treasurer James W. Girard, brought the total unduplicated disbursements of the various Democratic national campaign bodies to $150,190.99. The Republican campaign organization has reported net expenditures of $346,970.70.

Union High Will Play Ben Franklin Friday Afternoon

Friday at four o'clock the strong Union High school team will meet the Ben Franklin eleven. This game promises to be a good one, as both teams have been putting up a strong fight against their heavier and more experienced opponents all through the season. The teams are well matched and the game will be won only by the best skilled players.

Coach Burnham of Union stated today that Annerella, the tower of strength of the line, playing tackle, would be in the game Friday. In the practice yesterday afternoon the second team at Union outplayed the first line boys in every part of the practice game. This looks bad for the township boys, as Ben Franklin has been sailing along nicely for the last few weeks.

The game will be played at the Franklin field.

It's the spotlight that counts. Many a grand opera voice couldn't even be heard in the cheering section.

Neiman's Announce Their Entire Regular Stock Also Included

All New Fall and Winter Coats In The Store Go On Sale

Women of New Castle well know the wonderful values that Neiman's have offered this season in New Fall and Winter Coats. Including their regular stock with this large purchase will make this event of double importance.

Neiman's buy coats that maintain only the highest of quality and the majority of women who buy them come back every time they need a new garment. That is the highest recommendation that any clothes can have.

The reliable manufacturers with whom Neiman's do business are on the most friendly basis of business relationship. They co-operate with them to the utmost.

Neiman's carry complete lines of highest quality apparel the whole year round. Large women, extra large women, stout women or regular built women can always find a satisfactory model at Neiman's.

Entire First Floor Will Be Given Over To Coats

Neiman's never had so many coats in their store before. But owing to the size of their store as large as it is, it was decided it would be necessary to use the entire first floor space besides most of the stock rooms. As many racks as possible will be used too on the floor to display the coats in order to make the choosing and selling as easy as possible.

Great Aim Of Neiman's Store "To Make Our Store Your Store"

To serve—to be of service. That's an ideal worthy of working toward and it is the ideal standard they have set for their store. That is the thought back of all the conveniences and personal services that have been planned for customers and visitors of their store.

The spirit of service is and always has been a fundamental of their business—service in merchandise, safe guarding quality and keeping prices to the lowest level at which quality can be bought, service in equipment and conduct presenting a comfortable store where it is easy to shop, service that offers you many conveniences that bespeak friendly and hospitable welcome that makes a customer's visit a welcome.

A store is only what the public makes it and Neiman's feel proud of their institution and proud of your part of making a store like Neiman's possible. Courtesy and hospitality are watchwords and service is the thought that governs every activity of their store.

HEADQUARTERS FOR COATS

Neiman's have long been recognized as New Castle's "Headquarters for Coats" because they are "Ready-To-Wear Specialists." Their business is to buy and sell women's and misses apparel and nothing else.

Every season they concentrate their efforts exploiting the merchandise wanted at that particular time. The coat season has arrived and this year promises to be the biggest coat season the country has ever known, even though the season has been backward so far. Neiman's are prepared as never before with complete assortment of coats in all styles, colors, etc., for women, misses, children and stouts. And they have taken every advantage of market conditions to obtain them at lowest prices.

Now you know why Neiman's are known as "Headquarters For Coats." And every woman should make this her headquarters if she wants to buy a fine quality coat at a real bargain price.

Tomorrow, Friday, is a particularly good day to put their values to the test.

OUR BUYER IN NEW YORK

Our buyer has been located in New York since about August 1st. And through his constant touch with the ready-to-wear market and his affiliations with a group of stores with a buying power $5,000,000.00, and personally being the buyer for that group of stores he was able to aid in securing the greatest price concessions ever before granted Neiman's on brand new seasonable merchandise. So you can easily see why you may expect far greater coat values at Neiman's than you could expect to find elsewhere.

Did You See Neiman's Window Display?

Neiman's have their windows trimmed for their great coat sale. With so many coats now in their stock and such a variety of styles it would be impossible for them to display them all. But from the ones now on display in their windows you will be able to see what beautiful coats they are, and the low prices asked for them.

Every mother should take advantage of this opportunity to buy coats for the children at a saving not to be had elsewhere this time of the season. Be sure to take the Kiddie to Neiman's Friday or Saturday.

Starts Tomorrow Morning, 8:30 o'Clock

BE THERE EARLY

Neiman's will be ready for capacity crowds when their doors swing open tomorrow morning at 8:30 o'clock sharp. But they urge as many as can arrange to come in the morning, for no doubt the afternoon crowds will be enormous. New Castle women will witness a sale, the like of which has never been seen in New Castle before.

Neiman's have held big coat sales before but they have planned to make this the greatest sale of them all, in every detail. All you will be able to see will be coats, coats, coats. And you will want to look them all over before buying. There is no doubt in our mind that Neiman's will be crowded the entire day from the minute the doors open. But no matter what time you get there they are sure to have plenty of coats for you to choose from.

A Two Day Event

Neiman's state that their great coat sale will run for two days only, Friday and Saturday. Therefore, no economical woman in New Castle or Lawrence county can afford to miss this unusual opportunity to buy her new winter coat at an extraordinary savings.

OUT-OF-TOWN CUSTOMERS

Neiman's especially urge their out of town customers to attend their great coat sale and get their share of the wonderful values offered. They're sure you will not find values to equal them elsewhere, and it will be well worth your while to come to Neiman's tomorrow, Friday.

Tell Your Friends

If you have a friend who has not heard about the great coat event tomorrow, Friday, at Neiman's you ought to tell her about it. Don't have her say to you after it is all over, "Well why didn't you tell me about it."

$55.00 TO $65.00 SAMPLE COATS TO BE SOLD AT $39.50

$65.00 TO $79.95 SAMPLE COATS TO BE SOLD AT $59.50

EXCLUSIVE ONE-OF-A-KIND COATS TO BE SOLD AT $69.95 TO $89.50

Prepare To Handle A Large Crowd

Extra Salesladies

Neiman's have made preparations on a larger scale than ever before to handle the crowds they will have tomorrow.

There will be plenty of extra salespeople in addition to the regular force.

They have also obtained the services of an expert fitter with years of experience who now has charge of the alteration room. Everything has been prepared so that women can pick their coat, have it properly adjusted and the sale made in the shortest time possible.

The entire Neiman organization is enthused over this great sale, and agree that the values offered are the most unusual they ever witnessed.

FURS USED EXTENSIVELY

Fur trimmings are being used on the coats this season more extensively than for many seasons passed.

Coats with fur collars, cuffs, borders, tabs, etc., of squirrel, beaver, fox, oppossum, muffion, fitch, etc., can be seen when you inspect the large assortment of coats that Neiman's will place on sale tomorrow, Friday.

What Are Samples?

This question is sometimes asked. Here is the answer: Samples represent the manufacturer's "show pieces." That is, much thought and time and energy are expanded in producing sample garments, because the maker must depend on the impression they make on the merchant for the order he gets. If a sample coat, suit or dress has not been carefully made—if the style doesn't measure up to the fashions displayed in the European and American Styles Centers—if the workmanship isn't perfect—if the quality of materials isn't up to high standard—then the manufacturer's orders from the merchant will suffer. This being the case you can understand why samples are the very Cream of the Manufacturer's Productions. And at the end of the producer's season, which is the very beginning of the Retail Season, several of these manufacturers allow us to go into their New York showrooms and select a limited number of their display pieces at a reduction of a fourth to a third.

Exclusive Models

Exclusive One-Of-A-Kind models come only in the higher priced garments. And Neiman's state that in their collection of coats ranging in prices from $75.00 to $165.00 you will find only One-Of-A-Kind models.

Week's Activities For Students At Bessemer

(Special To The News)

BESSEMER, Pa., Oct. 28.—Another week has gone past and things are going on just as usual in Bessemer. Despite its being ghost and goblin week school classes and activities seem to play as large a part as ever.

Last Thursday Miss Hamilton was in charge of a much enjoyed chapel program. A reading, selections by the orchestra, an essay, and an original paper were given. While some of the students were getting ready for a pantomime the cheerleaders worked up a bit of "pep" for Friday's game. The title of the pantomime, given by the Dramatics Club, was "The Supreme Sacrifice." The program ended with a selection by the orchestra. The program next week will be in charge of Miss Keys.

Monday evening the High School faculty entertained the Grade school faculty with a Hallowe'en party. The teachers met at the High School building and were taken in cars to the home of Norman McClelland in Edenburg. The McClelland home was decorated in Hallowe'en festoons, a very appropriate setting for the spooks, ghosts, and mummers who held forth at the occasion. During the early part of the evening Dame Fortune smiled upon the function by sending a gypsy fortune teller who revealed the past, present, and future of those present. Dainty and appropriate refreshments were served. Games and stories were the entertainment of the evening. This was the first get-to-gether of the year where the teachers of one building had opportunity to get acquainted with those of the other building.

A new club was instituted during Activity period Tuesday. It is called the Flunker's Club. Mr. Colton, the principal, is in charge of this club. The purpose is to help the ones who failed during the last six weeks period. The club is permanent only for those who continue to fail.

The next community movie will be shown this Friday evening in the High School Auditorium. In this number, "The Rainmaker," Ernest Torrence, William Collier, Jr., and George Hale feature. The picture gives a vivid portrayal of the race track. It is certain to be of interest to all.

The faculty and students of Bessemer High School are invited to a masquerade party, to be given in the High School building Saturday evening, October thirtieth. Games will be played and refreshments will be served later in the evening.

Another masquerade party will be held on Tuesday, November the second, in the Presbyterian church. This party will be given by Mrs. Throop's and Mr. Eale's Sunday school classes. The entertainment will be in charge of Mr. Eale's class. The two Sunday school classes will have social events alternatively every month.

The football players of Bessemer High played a very interesting game last Friday. The game was with Fredonia and the score was thirty seven to nothing in favor of Bessemer. Although we did win the game last Friday we are still practicing hard for the games to come. The real game of the season will be played Armistice Day with New Wilmington High.

SOL DAVIES PRESIDENT

Owners Of Barber Shops In City Form An Organization

At a meeting of the owners of barber shops in this city held in the place of business of S. H. Davis, 13 North Mercer street, a branch of the Associated Master Barbers of America was organized, with Daniel Murphy, national organizer of the association, in charge.

There was a good attendance of the barber shop owners of the city and the officers selected for the ensuing year are: President, Sol Davies; vice president, Zack Allerton; secretary, John H. White; treasurer, Herbert Samuels; sergeant-at-arms, H. A. Fazzone.

The local branch in conjunction with the national association, which has its headquarters in Chicago, Ill., will have as its aim the elevation of the barber business to a higher plane.

The organization as a whole is urging legislation which will require that the operator in a barber shop must have at least an eighth grade education and shall have to pass a rigid examination before he can practice at the trade. It is also seeking strict sanitary measures.

The national organization has a slogan which the local branch has adopted. This is "It Pays to Look Well". There is also a system of cooperative advertising around this slogan, which will be placed in use here.

Due to increased cost of labor and of transport, the price of firewood has gone up 50 per cent in Bucharest, and there is believed to be a hard winter in store for the poor of the Roumanian capital.

WOMEN OF MIDDLE AGE

Praise Lydia E. Pinkham's Vegetable Compound

Mrs. Annie Kwinski of 526 1st Avenue, Milwaukee, Wis., writes that she became so weak and rundown that she was not able to do her housework. She saw the name Lydia E. Pinkham's Vegetable Compound in the paper and said to her husband, "I will try that medicine and see if it will help me." She says she took six bottles and is feeling much better.

Mrs. Mattie Adams, who lives in Downing Street, Brewton, Ala., writes as follows: "A friend recommended Lydia E. Pinkham's Vegetable Compound and since taking it I feel like a different woman."

With her children grown up, the middle-aged woman finds time to do the things she never had time to do before—read the new books, see the new plays, enjoy her grandchildren, take an active part in church and civic affairs. Far from being pushed aside by the younger set, she finds a full, rich life of her own. That is, if her health is good.

Thousands of women past fifty, say they owe their health to Lydia E. Pinkham's Vegetable Compound.

Elks Plan Big Frolic Monday

Indications Are That A Record Crowd Will Be In Attendance At Event

Monday night will be the time of the annual Hallowe'en celebration and frolic held under the auspices of the New Castle lodge No. 69, B. P. O. Elks. The committee in charge consisting of Clark H. Buell, J. Garfield Davis, Eddie F. Ryan, Jack Lewis, John H. Robson and Karl Kuechler have completed plans for the event after several weeks of preparation and the success of the event is assured.

As planned it will be a masquerade, although the fact that persons eligible to attend may appear at the door seeking admission with their natural faces, will prove no bar to getting in on the big afair.

The event is for the members and their families and also such friends of the members as they may desire to recommend. Each member has two such guest cards to present to friends.

Good prizes will be awarded for the best make-up and also for the most comic make-up.

PLAN FOR POOL OF POTATO CROP

(Special To The News)

MERCER, Pa., Oct. 28.—The Mercer County Potato Growers' Association plans a pool of 10,000 bushels of potatoes, they announced at a recent meeting. Whether the wet weather and rot that is attacking the tubers will make the collection of this pool possible is first being determined by the growers before any bids are asked. Such is the condition of the average potato field in Mercer county that dredging would come nearer harvesting the crop than any other medium. The crop destruction goes beyond any parallel that even the old-timers know of. It is said that unless there is some kind of a weather break soon the price of potatoes will skyrocket before the winter is over. The association members are making all speed possible in getting their crop dug that the size of the pool may be announced and bids asked. It is said that several big concerns in Pittsburgh are ready to place a good price on the crop any time they are asked. The good prices paid at the field by Sharon, New Castle and Youngstown dealers, who send their trucks over, is militating against pooling the tubers.

DANS PLACE

UNDERSELLS

FOR THE SIXTH TIME

For six years this sale has been planned as the most important event of the year. Weeks and weeks have been spent in arranging the countless details, carload after carload of winter merchandise has poured into our stores. Carefully laid buying plans bring as their reward Prices that are invariably the lowest in Town. Saturday begins this event that will undersell all New Castle for an entire month.

DANS PLACE IS UNDERSELLING THE TOWN!

IF YOU BUY ANYTHING HERE, DURING NOVEMBER, AND PAY MORE THAN THE SAME ARTICLE IS PRICED ELSEWHERE ON THE SAME DAY WE WILL REFUND YOU THE DIFFERENCE IN CASH.

SATURDAY'S THE DAY
See Tomorrow's Paper

To make sure that every employee is thoroughly familiar with the Dans Place Underselling Campaign during November, and fully appreciates its importance, we request that each sales person shall fill out, sign and return this blank to his or her manager. In turn these notices will be collected for the Executive Office.

All of these sheets are to be returned by October 30, 1926.

The Dans Place, "Double Our Sales in November" policy is: "If you buy anything here and pay more than the same article is priced elsewhere on the same day, we will refund the difference in cash."

This is very plain and means exactly what it says, and applies to every article we sell in our stores. Now we wish to make absolutely sure there is no member of our organization who does not thoroughly understand our policy and know exactly what should be done in any instance where this policy should apply.

Naturally it requires considerable vigilance on the part of this organization to make sure that we are not undersold anywhere on any item in all our twelve stores. We are satisfied it is worth to our stores all the trouble and all the expense, and all the price cuts and all the refunds necessary to make good 100% on this policy. Therefore the wisdom of this policy is not to be questioned.

Please answer these questions and return as above to your manager.

1. Do you understand this policy and appreciate its importance? _____
2. Do you treat a claim for a refund with a smile and a thank you, and make the customer feel that we are glad to have such an instance reported? If not, be sure in the future to do so _____
3. Can you suggest any way in which this policy might be made plainer to the public or more thoroughly enforced in the store? _____

Strong Man Who Bites Bolts Would Be Capital Cop

WASHINGTON, Oct. 28.—A professional strong man who bites bolts in two and bends iron bars as a pastime, yearns to assit in keeping the peace in the capital as a member of the police department.

The letter applying for a position was received by Major Edwin B. Hesse, superintendent of police, from Clarence Shuster of Martinsburg, W. Va.

"I am in perfect condition" it said. "I am a strong man. I pull off acts in streets and theaters. I do such things as bend iron bars. lift 2,000 pounds, break half inch bolts with my teeth and many more feats."

PLANT EMPLOYES TO CHASE GAME

(Special To The News)

GROVE CITY, Pa., Oct. 28.—Hunting is a popular pastime with the greater percentage of his men, is the opinion of Jack Henry, superintendent of the Bessemer Gas Engine Company. Of the 1,350 men employed at the plant requests for a day off on November 1, which ushers in the hunting season, have been made already by half that number of workmen.

If the percentage is any criterion of the community, the town will be depopulated.

Pennsylvania Is One Of Leading States In Production Of Apples

(Special To The News)

HARRISBURG, Oct. 28.—Pennsylvania is one of the oldest apple-producing sections in the United States, according to H. C. Brinton, president of the State Horticultural Association of Pennsylvania, who has been studying the early history of the apple industry of the State.

When the first settlers reached this country they were struck with the abundance of wild fruit and naturally, they soon sought to establish fruit plantations. The chief purpose of fruit in those early days was to supply cider, wine and brandy and this fact had an important bearing on the early development of the fruit industry in Pennsylvania, Mr. Brinton states.

Because of the difficulty of transporting young trees, the early settlers from Europe usually brought seeds instead of trees or vines and as "quantity rather than quality" was desired for cider making, large numbers of seedling trees were planted almost as soon as the first clearings were made.

At first the chief purpose of these plantings was to supply the cider then so much in demand for log-rollings, husking bees and the few social gatherings the settlers could enjoy. For this purpose almost any kind of seedling could be used. Soon a demand for the better seedlings for fresh fruit arose and, as methods of grafting became better known, orchards of selected kinds of apples began to appear. Many of our present varieties are selections from the thousands of seedlings that once grew in Pennsylvania!

A figure as striking in the history of apple production in Pennsylvania as the well-known "Johnny Appleseed," was Jonathan Jessop, the originator of the York Imperial apple. A monument has been erected to his memory a few miles south of York. The inscription on the tablet reads, "The York Imperial apple was first propogated about 1820 in this field by Jonathan Jessop. It is the most widely known variety of Pennsylvania origin and has contributed largely to the horticultural prosperity of the State."

Since colonial days one of the most significant changes has been taking place in the apple industry of Pennsylvania during the past three decades. The old farm orchards are fast disappearing and vast commercial orchards are being developed in sections where conditions are most favorable for apple production. There has been a relative decrease in the number of apple trees in the north-tier counties in the western section of the State. The great increase in the number of trees in Adams, Franklin, York, Cumberland, Luzerne, Berks and other eastern counties, has made them one of the important producing areas of the entire country. This year these counties have produced one of the finest apple crops in their history.

Reasonable Use Of Horn Is Urged

Motor Club Head Aids Campaign Against Useless Noises By Autoists

An appeal to motorists generally to aid in the elimination of senseless noises and to take the raucous notes out of those that seem relatively useful has been made by B. N. Hanlon, secretary of the New Castle A. A. A. While the automobile has brought innumerable blessings, Mr. Hanlon points out, it also has brought innumerable noises that should be eliminated.

"Every motorist is compelled to use the horn on his car. It is a vital bit of equipment," says Mr. Hanlon. "However, there is an intelligent standard in this aspect of driving that every motorist can try to reach.

"A movement has been launched by the American Automobile Association with which this club is affiliated, toward the elimination of useless noises by automobile owners and the arguments advanced are soundly based on facts. Certain classes of motorists, entirely through thoughtlessness, of course, never find themselves in any sort of traffic predicament that their first thought is not for the horn button.

"When approaching a street intersection, regardless of the fact that the pedestrian has the right of way, they resort to the horn in a seeming attempt to blast the walker out of his legal rights.

"That is only one instance of this sort of careless horning.

"There are dozens of times when use of the horn is absolutely imperative. When passing another vehicle, one is legally compelled to give a warning. A warning is enough. There is nothing to be gained from pushing on the horn button until one has passed the vehicle ahead. Still, thousands of motorists do it. They are not satisfied with a mere warning.

"Rounding curves, usually calls for the use of the horn. Here is another case when there is a reasonable limit to the use of it. A signal is a signal only so long as it does not become acutely annoying to the person whose attention one is trying to attract. After that, too often, it becomes a distinct challenge.

"One of the most annoying of noises is that created by the automobilist who wants to attract the attention of some one inside a building.

"Use the horn, but use it intelligently."

IRON AGE REVIEW OF STEEL TRADE

Steel Corporation Earnings For Third Quarter Are Surprisingly High

The Iron Age in its weekly summary of the iron and steel trades says: Further slowing down in new demand for steel products is reported this week. While still connected chiefly with the curtailment at automobile plants, which has brought a good many of them to a 50 per cent operation, it is affecting the structural industry more than in recent weeks and is causing consumers in other lines to limit their buying more strictly.

More clearly than could be seen at the opening of October, it now appears that much of the business taken in August and September will carry some of the consuming industries through November. Thus, order books are not likely to make so good a showing next month as in October.

The Steel Corporation ingot production this week is at 83 per cent and its pig iron production at 69 per cent, neither greatly changed, but further reduction in ingots is probable in November. Leading independent companies are averaging close to 78 per cent in ingot, with the prospect of 75 per cent or slightly less in the near future. In fact, Youngstown producers are at 75 per cent this week.

Steel Corporation earnings for the third quarter were surprisingly high, at $52,626,000, being the best since the second quarter of 1918. The output was evidently higher than for any peace-time quarter, and in addition to large earnings of ore roads, there was an excellent showing in cement.

Alongside of the growing quietness in steel is the spectacular activity in the coal market, with price advances that have extended to coke and that may yet affect merchant pig iron. But as few steel producers buy pig iron and fewer buy coke, the excitement in fuel is as yet without bearing on the steel situation.

Spot furnace coke has sold this week at $4.50 at ovens, and $5 is asked for first quarter, whereas on contract coke for this quarter the price was around $3. Merchant furnaces dependent on the market for coke are not selling for first quarter, and around Pittsburgh the pig iron for this year is stiffening.

Large buyers of steel bars are still postponing the issue on the fourth quarter price, since deliveries continue to be made on 1.90c. contracts. There is the complication in the Cleveland district of a 2c. mill price, identical with the the Pittsburgh base, and as low as 1.90c., Cleveland mill, has been reported.

A change is coming over the ferromanganese situation. While much of this year's buying was at $88, due to active three-cornered competition, little business can now be done at less than $95 per ton, furnace, with indications that next year's contracts will call for $100.

September exports of iron and steel at 182,071 gross tons exceeded those for August by 6.2 per cent. Imports at 85,484 tons fell off 6.6 per cent.

THE striking beauty and effortless speed of the Big Six Custom Victoria—Studebaker's latest custom creation—are symbolized by the silvered figure of Atalanta, legendary Arcadian princess of whom Swinburne wrote, "fair as the dawn and footed as the wind."

Its full-vision steel body is an achievement in true custom beauty. Wide doors give entrance to a faultlessly appointed interior. Every detail of custom treatment—from form-fitting Chase mohair upholstery to silken curtains and broadlace trim—blends harmoniously in a delicate color scheme. A package compartment inside, and ample space for luggage under the rear deck are typical custom conveniences.

A patented ventilating windshield (exclusively Studebaker) assures confiant fresh air without the danger of drafts. Even in severe storms it keeps out rain, yet provides perfect ventilation.

The Big Six L-head motor, first to beat the fast schedules of crack transcontinental Limiteds, delivers abundant power, smoothly and silently. Only seven American cars have a higher power rating, and they cost from two to five times more.

See this Studebaker Custom Victoria *now*—smartest of personal cars at a price which makes it the smartest buy of the season.

Ventilate Room When Gas Is Burning, Coroner Warns

With the approach of cold weather, Coroner J. P. Caldwell points out in a warning issued today the dangers of sleeping in poorly ventilated rooms with a flueless gas stove burning.

Already this year 21 persons have been killed by inhaling poisonous gas emitted by stoves that have not been properly fitted with flue connections.

Investigations into deaths resulting from the fatal monoxide gas reveal, according to the coroner, that victims in many cases go to bed without sufficient bed clothing and in seeking warmth, often leave windows unopen, and a gas stove without a flue connection burning.

Coroner Caldwell in his warning states:

"Sleep is as essential to life as food and during the cold weather, warmth is essential to sleep and in the course of investigation of deaths by carbon monoxide poisoning, we find that the deceased has gone to sleep in a bed without sufficient covering, the windows are closed and often sealed by paper and a gas stove, without flue, is burning. The deceased not having proper bed covers, had closed windows and turned on the gas and prepared the stage for another tragedy, not knowing the possibilities of death that hover above the flueless gas stove.

"Carbon monoxide is a colorless, tasteless and practically odorless gas. Its most common sources are gas (natural and artificial), coal stoves, grates, salamanders and smouldering ashes. While carbon monoxide may accumulate rapidly from any of these sources, danger arises only wnen the supply of oxygenated air is depleted.

"To avoid the depletion of oxygenated air, particularly in case of gas stoves, install a proper flue, open window in room and remember, at all times, that the safe way to obtain warmth is by sufficient bed clothes, and not by closing windows and burning gas fire.

"You will live longer without food than without proper bed clothes in cold weather, because the lack of bed clothes tempts one to burn a gas stove and close the windows."

ROUND TABLE ON NOVEMBER 3

(Special To The News)

Baby Show-Off Is Howling Success

By KATE MOORHEAD

ELLWOOD CITY, Pa., Oct. 28.—Betsy Ann just simply wouldn't be quiet while I got her dressed for the Baby show given by the Community Service people at the First Presbyterian church, and it was after a lot of fixin and squirmin that I got her in her new ruffled dress and into the carriage.

We arrived at the church just about 1 o'clock, and my such a crowd of women with their children you never did see. Now there stood Mrs. Harry Aiken carryin little Evelyn Jean, and she looked that wore out. After we'd been standin out there in the vestibule for more than an hour, Miss Helen Burton said it was time to start. "And high time it is," I said, with Betsy, nearly fallin asleep in my arms, and her weighin no less than 25 pounds.

They weren't ready for me and I just let my little girl down for a minute so that I could rest. No sooner had she gotten submerged in that big crowd when I heard a terrible scream. Mercy, I couldn't imagine what they were doing to my child and rushed to her rescue. There stood Mrs. Gail Morrison scolding my adorable little girl who was crying like anything. Mrs. Morrison had a broken doll in one hand and do you know she accused my little girl of breaking that doll on her little David's head. She said that Betsy had snatched the doll from her little Nancy Jane, and David was trying to get it. Now I have my opinion of boys who are so rude to little girls, I told Mrs. Morrison as much.

While I was coming back to get in line I heard Mrs. Burton telling Mrs. Conway her little Betsy Jane was the prettiest child there. Guess she hadn't looked at my Betsy Anne, or she'd of changed her mind. Why that child is a joy forever.

I had been looking at Mrs. Conway but was soon startled to hear Mrs. Bracken saying, "Make that child of yours stop pulling my Jean Anne's hair." Imagine my darling child doing anything so naughty. I just told Mrs. Bracken what I thought about it.

As I was given her some of my best back talk, Betty Sowry sed for me to get my child undressed. "Do you mean to tell me that I must undress that child, why I didn't bother about changin its underthings I said—that astonished; but she remained domineering. Just as I was about to comply little Betsy Ann slid from my knee and the next thing I knew she was trying to take Kenneth Jean Thompson's new shoes from him, while Kenneth's brother Ralph strutted over to his mother and said how mean my little girl was.

At last after a lot of trouble I finally located the new 50 safety pins that I had imbedded in my little girl's clothes sos they would appear alright to the person who saw her dressed up. And my what a howling she set up when I started takin out them pins. You'd a thought I was killin her, she yelled that loud, shakin a box of talcum powder on the rug.

I never thought doctors could be so cruel. I sent a special note to Dr. Helling that I would please like to be next on account of my social engagement, but he said his engagements were having to wait too. I'll bet his engagements were just old sick people, nothing important like mine.

Robert Anderson was put on the scales and measured and never cried once, but then my little girl is so pretty when she cries. So I didn't mind much. J. Leroy Rodgers was next and my little girl took an awful shine to him, pullin his hair and pokin his eyes so cute, but his mother said she didn't see anything cute about the way my child was so naughty.

Well my child was weighed and Miss Lorena Thompson the new nurse assisted by Florence Hartung measured her and examined her mouth and feet. I heard them saying what a grand child little Glen Garwig was, and they never even said my little Betsy Anne was the prize winner. But then of course I knew all the time she would be, her such a little darling, actin so cute eatin the safety pins while I was dressin her.

Enjoy Party At Burnstown Home

ELLWOOD CITY, Pa., Oct. 28.—James and Floyd Cogley were hosts to a number of their young friends at their home in Burnstown Tuesday evening. It was a masquerade party. Much merriment was caused by the grotesque costumes. Games and stunts were enjoyed until a late hour when refreshments were served by the host's mother, Mrs. Frank Cogley, assisted by Mrs. William Wheman.

Those present were Virginia Blazin, Hazel Wheman, Kathleen Shaffer, Sadie Jordan, Margaret Blazin, Charlotte Jones, Ruby Cogley, Fay Gallaher, Ellen Wheman, Ethel Taylor, Dora Burns, Anna Moskey, Edward Steed, Glen Gallaher, Paul Shaffer, Charles Wheman, Leslie Miller, Charles Parker, Adolph Steed, Ferd Wheman, Warren Honnifer, Joseph McCormick, Clair Rupp, James and Floyd Cogley.

Rochester-Ellwood Teams To Clash On Saturday Afternoon

Ellwood Football Team Has Chance To Win Valley Cup

ELLWOOD CITY, Pa., Oct. 28.—When the Rochester and Ellwood City High School teams clash here Saturday, the winner may be the champion of the Beaver Valley. Rochester is the only undefeated team in the Valley. They tied Freedom however, and if they lose to Ellwood, the locals, Monaca and Beaver Falls will be in the lead with only one valley defeat each.

Rochester is the favorite to win the game. They beat Beaver Falls by a 7 to 6 score, while Ellwood lost to the same team by a 7 to 0 score. This paper dope makes Rochester look stronger but Ellwood will not stand aside and watch them score.

Ellwood will be without two regulars, Saturday. Sanders and Wilson are both ineligible. However MacMurdo, Johnston, Clyde and Justine will be a hard backfield combination to beat.

Seventy Four Are Enrolled At Show

Dr. Helling With Assistants' Are Kept Busy With Classifying Children

ELLWOOD CITY, Pa., Oct. 28.—Seventy-four children were enrolled for the baby show conducted at the First Presbyterian church under the auspices of the Community Service Wednesday afternoon. Dr. H. E. Helling examined the children and was ably assisted by Miss Helen Burton, Miss Betty Sowry, Mrs. L. M. Burton, Miss Lorena Thompson and Miss Florence Hartung.

The children were given a thorough examination as to weight, height, etc., and mothers will be notified as to the results in the near future.

The four best children, the ones with the best scores, from each division will be notified to appear at the clinic rooms for final judgment. There are five divisions and each mother will be given an opportunity to view the fairness in judging.

Large tables were set up in the Sunday school room and heavy blankets formed a good place for the mothers to dress and undress their children. The class rooms on the first floor were used for special booths, one for registration, one where the doctor made the examination.

Good health placards were placed here and there, reminding the mothers that the children should have certain foods and certain amounts of sleep, etc. It is thru the courtesy of the First Presbyterian church that it is made possible for the baby clinic to be conducted there each year. The tables are procured from the basement and other furniture is provided, as well as a special amount of heat in order that the children will not take cold.

Mrs. Frances Bracken Entertains Class At Hallowe'en Party

ELLWOOD CITY, Pa., Oct. 28.—Mrs. Frances Bracken delightfully entertained members of the Suzanna Wesley Sunday school class of the First M. E. church at a Hallowe'en party Tuesday evening. The home on Wayne avenue was decorated with Hallowe'en motifs, autumn leaves, flowers and pumpkins in keeping with the season. The evening was enjoyed with music and games until a late hour when a delicious lunch was served by the hostess, assisted by her mother, Mrs. R. A. Snedden, and Mrs. Walter Whittaker.

Guests of the evening included Mrs. Bert Telson, Mrs. Aleck, Johnston, Mrs. Charles Morrow, Miss Hilda George, Miss Lillian Russell, Miss Helen Stonesfelt, Miss Edith Bottorf, Miss Mary Hemmerly, Mrs. G. Y. Fike, Mrs. Paxton Fike, Miss Helen Whittaker, Mrs. Walter Whittaker, Mrs. Karl Kamperman, Mrs. John Cheeseman of Slippery Rock, Miss Thelma Welsh, Mrs. Gerald Infield, Miss Rita Patton, Miss Maud Smith, Mrs. Clarence Wallace, Mrs. Charles Relph and Mrs. Ethel Bair.

Crippled Children's Clinic At Hospital

ELLWOOD CITY, Pa., Oct. 28.—Dr. J. Wallace of Pittsburgh conducted a clinic at the Ellwood City Hospital Wednesday afternoon under the direction of the Rotary Club. The clinic for crippled children is a real boon to many children who would otherwise be unable to afford operations, without the extensive help offered by the club men. Seven children attended the clinic in the afternoon. Three operations were performed by the surgeon in the morning. Children operated on were Letha Syuioquero, Charles Gretch and Nicklas Andrews.

COUNTRY CLUB PARTY

ELLWOOD CITY, Pa., Oct. 28.—Mrs. William Kegel of Glen avenue was hostess to the Country Club bridge Wednesday afternoon. Bridge was the chief diversion of the afternoon and the favor for high score was awarded Mrs. David Cartwright. Lunch was served at a late hour by the committee of which Mrs. J. Reed Carpenter was chairlady.

Rev. Cosby To Preach Farewell Sermon Here On Sunday Morning

Virgil Cosby Is Licensed To Preach Sermons At Beaver Valley Presbytery

ELLWOOD CITY, Pa., Oct. 28.—Rev. James A. PETER'S ADVENTURES IN ANIMAL LAND

By Mrs. Florence Smith Vincent

UP AND STIRRING!

"'Around the moss-covered stump trotted Wander, nose close to the ground, sniffing, sniffing, tail straight and stiff as a stick behind him, and on the third lap the keen scent of the Dog caught the trail and off he started at a pace that you or I, acushlas, would have found it hard to keep up with.

"'Cover your eyes with your paws, babes o' mine, and make believe you see the trees, and nothing but trees, to the right of you, to the left of you, behind you, in front of you! But, there how could you imagine that there could be so many trees in all the world as grew in that Green Forest, you who have spent all your young lives on the bank of this old mill stream?

"'Never at all have you been in the deep woods, children, and sure 'tis frightened you'd have been at the stillness. But truly the Green Forest was full of sounds, had you the ears to hear as had Wander.

"'Nothing whatever loves to carry tales as does a Breeze, and many a one that morning came to the Forest with news of the great world outside, and the leaves welcomed the tidings with soft, glad whisperings.

"'Gentlemen Birds, making their round of morning calls, stopped at the neighbors' nests and trilled the gossip of Birdland to their neighbors' wives, busy at their household duties.

"'Woodland folk stirred among the leaves. Here Mother Partridge was teaching her babies to "play dead" when a Two-Legs

came a-hunting. There Professor Bunny, early as it was, had called his school together and was showing the little Bunnies the "rabbit turn", the trick by which all Bunny people escape their pursuers.

"'Somewhere out of sight Papa Bear was sharpening his nails. Scratch, scratch, scratch went his claws upon the trunk's rough bark.

"'All the Green Forest folk were up and stirring!'"

At Lodge Meeting In Sharon, Pa.

A number of local members of the Tribe of Ben Hur, No. 9, were in Sharon, Pa., Wednesday evening, where they attended the putting on of the Meltor degree by the Ben Hur lodge of that place.

Visitors were present from Meadville, Greenville, Warren and New Castle. Mrs. Minnie Mayers and Ralph Mayers of this city assisted in the degree work.

The next regular meeting of the local lodge will take place Monday evening, Nov. 1. The social planned at the close of the meeting has been postponed until two weeks on account of Hallowe'en celebration on that evening.

MAN WAS POISONED WITH STRYCHNINE, INQUEST DISCLOSES

WASHINGTON, Pa., Oct. 28. — A coroner's jury found that John Craig Miles, 60, of this city was poisoned by the use of strychnine, but failed to accuse any one of having administered it in a verdict returned at an inquest.

Miles died suddenly at his home under mysterious circumstances. Authorities started an investigation and an analysis of the contents of his stomach disclosed a large amount of strychnine.

Mrs. Miles, Frank Fisher, a former roomer at the Miles home who was ordered from it because of his attentions to Mrs. Miles, and John Stahl, a brother of Mrs. Miles, are being held as material witnesses in the case.

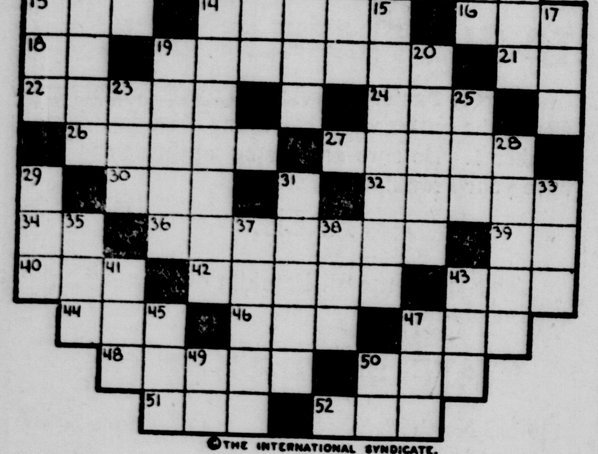

The record for speedy growth among trees belongs to the bamboo, which, during the rainy season, can almost be seen to grow. New shoots will rise at the rate of nine inches in each 24 hours.

NEW CASTLE HIGH FACES TEST IN SCHENLEY GAME

Pittsburgh Team Has Fine Rating

Coach Bridenbaugh Sends Local Gridders Through Stiff Session Wednesday

INJURED REGULARS OUT IN UNIFORM

By "BUGS" WALTHER

New Castle High's 1926 grid combination faces a real test Saturday afternoon at Ben Franklin High stadium.

The locals having fed up on Crafton, Butler, Youngstown, Grove City and Duquesne University High, will be called on Saturday to meet Schenley High of Pittsburgh in what looms as one of the most important schoolboy battles of the year. Both teams are undefeated to date. Schenley will bring a team to this city that is rated as one of the strongest machines gathered together at the Pittsburgh school in many years.

Stiff Scrimmage

Coach Bridenbaugh, knowing full well that Schenley High will prove the strongest team that his charges have been called on to face this year, sent the boys through a stiff scrimmage session on Wednesday afternoon at the Franklin stadium. The scrimmage session lasted for about two hours and the boys were ready to call it quits when darkness began to envelop the spacious arena.

The varsity team walked over the scrubs for a fare-thee-well and scored touchdowns almost at will. For the greater part of the time the varsity men were drilled on taking the ball over from the five-yard line and the seconds offered plenty of opposition, but not enough to stop the charging tactics of Harper, Klaber, Richards and Turk.

Injured Men Return

New Castle High's stock took a decided jump Wednesday night when Sillman, Harper and Christman reported in uniform for the scrimmage session. All three of the varsity regulars were injured in last Saturday's game, but their condition was not as serious as was at first believed and it was possible for them to don their togs yesterday afternoon, although they took but little interest in the workout. It is hoped that the boys will be ready for action on Saturday and it was due to this contention that he felt satisfied to allow the three injured boys to take things easy.

Watch For Wagner

"New Castle High will have their hands full Saturday afternoon if they stop this man Wagner," said Coach Bridenbaugh, the local mentor recently witnessed a game in which the stellar Schenley performer was the main cog and immediately he set to work to form a defense that would prove trying to the clever Schenley all-scholastic fullback. Wagner is rated as one of the greatest schoolboy players in Pittsburgh today and is a tower of strength to the Bellefield team. Boyle, Wise and Smith together with Wagner form the Schenley backfield, and the boys are about as good as anything in the Pittsburgh district.

Captain Harry Robinson in practice last evening was booting the ball for 40 and 50 yards and if he can get this distance Saturday afternoon the Schenley team will be placed at a distinct disadvantage. Robinson has developed into one of the most consistent kickers that New Castle High has had for the past several years, in fact since the days of Joe Hartman.

Second Team Is Strong

The the New Castle High team romps through their practices it is quite noticeable that Coach Bridenbaugh has a second out there every bit as good as the first team. A team is no stronger than its substitutes and New Castle High does not want for material this year.

Coach Bridenbaugh is not worried over the backfield material in the least, the locals have two complete sets of backfield men with very little difference is the general opinion. The varsity combination comprises Sillman at quarter, Klaber at right half, Richards at left half and Harper at fullback. The second combination finds Turk at quarter, Smith at left half, Di-Thomas at right half and "Peg" Thomas at fullback. It is doubtful if any other high school team in this section can produce two sets of backfield men that will average like New Castle High.

Another hard workout is planned for this afternoon. Friday afternoon the boys will go through a light signal drill and then rest on their oars until game time Saturday.

Greenville High Grid Members Are Barred From Play

Six Greenville High Stars Forced Out Of Game By New Ruling

(International News Service)

GREENVILLE, Pa., Oct. 28.—Students at the Greenville high school were downhearted today at the report that their football team may disband for this year because six of their star players have been suspended.

The board of education told Capt. Gibson, Dowart, Gardner, Smith, Marks and McClure they could play no more football this season for violation of the eight-semester western Pennsylvania Interscholastic Ieague rule adopted this spring. The sextette was not at fault, the board intimated. There was a general misunderstanding here on the interpretation of the rule, it was said.

The team's game with the Franklin, Pa., eleven may be played Saturday as scheduled, it was reported.

CHICAGO BIDS FOR SHARKEY

Clements Offers Him $150,000 To Box Jack Dempsey

BOSTON, Oct. 28.—An offer to match Jack Sharkey, conqueror of Harry Wills, and Jack Dempsey, former world's heavyweight boxing champion, for a bout in Chicago next June has been received by Sharkey's manager, it has been announced here.

Johnny Buckley, manager of Sharkey, said that William Clements of the Chicago Coliseum Company had offered the Boston boxer $150,000 to meet Dempsey. Buckley said that he would not be able to announce a definite decision in regard to the offer for two weeks because Sharkey was in New York City, where his child was to undergo an operation.

He said that Clements had promised to try to match Sharkey, the former sailor, with the world's champion, Gene Tunney, if the Boston boxer defeated Dempsey.

Geneva Favored To Defeat Thiel

Covenantors Hold Stiff Practice Sessions In Preparation For Battle

BEAVER FALLS, Pa., Oct. 28.—Chilly weather is speeding up the practice of the Covenanter squad on the Geneva field in anticipation of the coming conflict with Thiel. Thiel was able to squeeze over a 7 to 0 defeat in her game with the Dukes last week-end, and Geneva played rather spasmodic football to defeat Waynesburg Friday. Dope never counts in such games, but the plausible conclusion is that the Gold and White should win without a great deal of difficulty.

President M. M. Pearce of the college was privileged to watch a game between Denver City university and the Colorado Agricultural college in the new Denver stadium during a recent western tour. It is in this stadium that Geneva would play, should the offer of officials of the Rocky Mountain conference be accepted for a post season game with the winner of the conference. Needless to say the outcome of the Thiel-Geneva game will have important bearing on the deciding on the acceptance of this western offer.

Geneva hopes to make up for lost time which the recent slump brought to the team. The Canisius and Waynesburg games were disappointing to the players, coach and fans. Although the Beaver Falls school is leading the Tri-State conference now, there is a hunger for more convincing excellence. Allegheny and Grove City, long past rivals of Geneva team, are awaiting Geneva scuffle with intense and determined expectation. Geneva is due for a tough scrimmage Saturday and the following games will be much harder, so it's work, work at the McMillin farm.

Booster Day Special Is Being Crowded By Fans Of New Castle

Every Ward In The City Is Sending Boosters To Franklin Field

Student Body Will Have Tremendous Task To Outcheer Boosters

By ED FRITZ

Puffing vigorously and whistling for all crossings the ponderous engine and train that will pull the Booster special from all parts of the city to Franklin field arrived here last night and today commenced taking on its human cargo for delivery at Franklin field Saturday afternoon when Schenley high plays New Castle high.

As soon as the Booster special arrived in the city last night the committee of 18, which is heading Booster day clambered into the cars and laid out more fully their plans which may result in the New Castle high grid boosters outcheering the Ne-Ca-Hi student body. According to reports, tickets for the Special are in strong demand.

According to the committee of 18 their plans for October 30 are running smoothly and that there will be large delegations aboard the Booster special from all sections when the train pulls into Franklin field. Estimates made by committeemen place the number of boosters who will occupy the special reserved section at 2,000.

The 2,000, after leaving the Booster train will flock into the section where they will commence a clatter of noise that will resemble the roar that greets the tourist visiting Niagara Falls. In other words the boosters plan to do everything and anything, in a disciplined manner, that can beat the student body and lend morale to the Red and Black team.

One of the noise-makers will be Attorney George Muse upon whom the committee of 18 has placed a ponderous duty. According to the committee, the attorney is supposed to outyell 25 students. Knowing George and the depths of his voice, likewise its lasting quality, there is every reason to believe that he will give the 25 students a real battle.

Name Cheer Leaders.

The boosters will "root" under the able direction of Strizzi, Carnegie Tech cheer leader of 1921; O'Neil, cheer leader of New Castle high of 1925, and Brooks, cheer leader of New Castle high of 1925. Cheers have been printed and will be given to all those who clamber aboard the Boosters special or into the Boosters section.

Among the stunts will be singing. The committee has secured the services of DeLillo and Chill, the Doodle-de-Do boys. They will sing their Doodle-de-Do between halves. They have arranged several parodies which the boosters can gather as the Doodle-de-Do rolls from DeLillo and Chill.

Further reports from the committee say that the Metropolitan and Chicago opera companies may be present. However, this cannot be vouched for with accuracy. However, there will be songs by others in addition to Doodle-de-Do boys. So far Jack Griffith has not been heard of. It would not be surprising were he to appear.

In order to secure representative opinion of the Booster day idea, a number of New citizens have been asked by the committee of which Willyum Connery is secretary, Jimmy Lamoree, feature chairman with the well known Doctor McConaghy and Ed Conaghy greasing the ropes, to express their opinions. Here are a few:

D. S. Pyle—"I am heartily in favor of anything which will boost New Castle and am particularly interested in the boys and girls of high school. Anything I can do to make the day a success will be done gladly. Call on me."

Jim Love, he should be called James, perhaps, but he is best known as Jim, and that is why he is written of as Jim. This is what Jim Love says: "New Castle always leads the way and I am with you every inch of the way. Count me as a booster, 100 per cent."

Everybody Boosts.

John C. Taggart is backing the New Castle team on Booster day and every day and said: "I will be glad to help in any way possible."

Doc Zerner, who never attends a game unless he totes his camera to bring away concrete evidence to support his contention, says: "The spirit that wins the game is the spirit that fights hardest when things appear blackest. If holding a Booster day will help the team to fight to victory I'm with you."

Fred L. Rentz, whose first name should have been Boost, told the committee: "As always, I'm with the boosters."

John A. Butler told the committee: "The welfare of the students of New Castle is close to my heart. Anything that helps them has my approval."

Attorney Ed Logan, who has furrowed his way through mother earth in many grid contests said: "I am an old high school player myself and a high school booster. I will be with the boys to the finish."

Ike Anwyk stated that "It is going to be some game and I'll be there if I have to work an extra turn to do it. Coach Bridenbaugh has some pretty tricks up his sweater and I feel that Schenley is in for a licking. Yes, I'm a booster."

E. A. Fenton dropped his pen with a bang and declared: "I'm with the boys so you can count me in. I'll be present."

Doc Matheny, the well known supporter of everything that is clean and specially the high school, believes in going after the opposing team hard. "I like to win. Booster day is going to help to win a hard game from a good team."

Tickets on Sale.

George Muse, attorney, to whom the task of outyelling 25 students has been delegated, said: "It takes 11 players, a coach, a manager and a live bunch of rooters to make a successful football team. You'll find me present, rooting as ever, Saturday."

Tickets for the boosters reserved section are already on sale at the following places: Sporting Goods store, Eroe's Jewelry store, Bill Fazzone's barber shop, Alex Samuels, Ed Raney (New Castle tin mill), R. H. McBride (Shenango tin mill), D. Brooks (steel mill), Carm Sacco (Shenango Pottery), Paul Marso (Johnson Bronze Co.).

The High School Athletic Association has allotted the boosters 1200 seats and these wil be reserved for those with the special tickets. After 1200 tickets are sold the sale will be stopped.

Pal Kansas To Box At Barberton

Pal Kansas, Westminster college boxer, today stated he has been matched to box Knockout Mulligan of Calgary, Canada, at Barberton, October 29. The bout is scheduled to go eight rounds. Kansas is a student at Westminster.

Name Officials For Grid Game

Faculty Manager Ralph H. Gardner has secured three efficient men to handle the Schenley-New Castle high game Saturday. Announcement of the selection of the officials came today.

Umpire—Cadigan, Syracuse.

Head Linesman—"Speedo" Laughlin, Pitt.

Methodist Gridiron Handicaps Eleven

Train On Heavy Field For Grid Battle With Grove City Saturday

MEADVILLE, Pa., Oct. 28.—Coach Merritt the popular Allegheny college grid coach has been greatly handicapped in his preparation for the important contest with Grove City next Saturday because of the bad condition of Montgomery field. Monday night the team was compelled to run through their signals in the gymnasium and on Tuesday night little could be accomplished in the mud.

With the change in the weather the Allegheny team made up for lost time Wednesday, working faithfully from 3 until it became dark. The team looked fairly impressive in the long workout but there is still much to be done before the Blue and Gold will be ready to stack up against the powerful Crimson aggregation.

Coach Bowser at Grove City has little to worry about. He will present for the game Saturday practically the same lineup that romped over the Allegheny gridders a year ago. From the beginning of the season the Grovers have been pointing for Allegheny and at the present time they are working with clock-like precision and merely marking time until the contest begins.

Saturday's championship contest will bring together two teams that have proved that they can play class A football. In fact the Allegheny-Grove City clash is the most important contest scheduled in the entire district for next Saturday with the possible exception of the West Virginia-Missouri game.

Tunney Scoffs At Commission

Champion Does Not Take Kindly To Edict He Must Soon Defend Title

(International News Service)

PITTSBURGH, Pa., Oct. 28.—Gene Tunney does not take kindly to the edict of Commissioner James Farley, of the New York State Athletic Commission that he defend the heavyweight championship within six months after winning it from Jack Dempsey, he made it known today as he left for New York to be a guest of the American Legion at a banquet tomorrow night.

The new champion, here to attend the funeral of Harry Greb, ex-middleweight champion, indicated that his next bout will be staged either in the Sesqui-Centennial stadium at Philadelphia, where he defeated Dempsey, or in Soldiers' Memorial stadium in Chicago.

"If Jack Dempsey defeats the winner of an elimination tournament being conducted by Promoter Tex Rickard, I'll be glad to give him another crack at the title," Tunney said.

Next week Tunney will consider a score of business offers, he said, one of which is an offer to make a vaudeville tour.

Suspend Six Grid Players At Greenville

GREENVILLE, Pa., Oct. 28.—Six star players on the local high school football team have been suspended when the board of education found that they were being played in violation of the eight-semester P. I. A. L. rule which was adopted last spring. As a result of this action it is very probable that the remaining games with the exception of the Franklin contest here Saturday will be called off.

The board stated that no one was at fault, as there was a general misunderstanding here regarding the rule. The players suspended are: Captain Gibson, Dowart, Gardner, Smith, Marks and McClure.

Nebraska Folk Honor Alexander

ST. PAUL, Neb., Oct. 28.—Residents of this town of less than 2,000 persons were hosts yesterday to one of the largest gatherings in St. Paul's history, here to kill the fated calf and pay tribute to Grover Cleveland Alexander, whose crafty right arm supplied the punch that gave St. Louis its first world's baseball championship.

Dempsey May Enter Elimination Bouts

Former Champion May Be Matched With Harry Persson For New York Bout

Dempsey Must Fight Way Back To Return Match For Heavyweight Title

BY DAVIS J. WALSH
Sports Editor Interaat'l News Service

NEW YORK, Oct. 28—There will be plenty of bozos on the heavyweight hoof doing their buck and wing for local diversion within the ensuing ten months and Jack Dempsey will be in there elevating the instep with the best or the worst of them.

This is the deep, conniving plan of Tex Rickard as outlined to the writer today for the greatest heavyweight campaign in the history of boxing. Before he is through, Mr. Rickard will have approximately $2,500,000 of the customers' money and the customers will have approximately all they wish to see of men who were intended to be piano movers but thought better of it. The main idea is to build Dempsey back to where he was in 1919. The customer, ever on the alert in an emergency, will do the rest.

Dempsey Active

Dempsey, as I understand it, will take part in possibly three matches before October next and one of them will be with Gene Tunney, the man who made him what he is today. Of course, John or Jack, as he is sometimes known, first must clear a hurdle or so before he can presume again to know our Mr. Tunney professionally. In this way, John may be able to convince himself and, at the same time, incite the customers to rioting at the turnstiles. The latter consideration is merely mentioned; it is highly unimportant.

The first victim, or maybe the next champion for all I know, will be Harry Persson, the Swede with a bald head and a general idea. Rickard says Persson is the best looking prospect among the heavyweight contenders. Dempsey agrees with him. That settles it. He's in—unless some unthinking lunkhead in a moment of abstraction knocks him out.

If and provided John gets by this hombre, the next opponent will be either Jim Maloney of Jack Sharkey. This will be an outdoor shot, if it is held at all. So will any bout involving Dempsey and Berlenbach. All of these gentlemen have ideas and they run into thousands.

Persson will do for the Garden, however. Being a bit naive or something, he probably will be willing to go in there for $1.68 and carfare to the arena. This automatically makes Dempsey and Persson a very desirable indoor attraction. Any guy who will fight for the price of his breakfast ought to be indoors, according to the standards of pugilistica; in fact, they will tell you he ought to be in Matteawan.

Dempsey is scheduled to return to California next week to take stock of himself and see what he has. He says he will quit the ring if he finds he can't fight as he once did. That is plain, undiluted and unpalatable bunk, for the fighter, doesn't live who thinks he can't fight, even at the age of ninety.

Dempsey will be back. So will the customers. More power to both of them, meaning Dempsey and the customers. Unfortunately, there will be more than two customers.

Penn Team Leaves For Champaign, Ill.

(International News Service)

PHILADELPHIA, Oct. 28.—Forty members of the varsity squad at the University of Pennsylvania were to leave today for Champaign Ill., the scene of their intersectional battle with Illinois on Saturday, a game that practically will decide Penn's fate for the season of 1926. Illinois broke Penn's winning streak last year by running up a 24 to 2 score, thanks to Grange.

Charley Rogers the ailing backfield star was to be a member of the party but the likelihood was that Pastor Fields will start the game in his place. Twenty-four members of the scrub team also were to be taken along as a reward for their efforts.

FARMERS BEGIN POTATO DIGGING

(International News Service)

MEADVILLE, Pa., Oct. 28.—With favorable weather for the first time since the crop has been ready, hundreds of Crawford county farmers were at work in their potato patches today harvesting crops for the market.

Rainy weather has damaged the potato crop to a great extent, farmers said.

NOT SWEDEN'S ROYAL WEDDING

But This Halfback's Playing Is Main Interest at Evanston

By NORMAN E. BROWN

The coming royal wedding of Prince Leopold of Belgium and Princess Astrid of Sweden is drawing the major part of attention in the news in Sweden these days. But the interest of Swedish activities in and around Evanston, Ill., centers about the doings of Victor Gustafson, left halfback on the Northwestern university football team.

Gustafson is one of the backfield mates of Ralph "Moon" Baker, called Red Grange's only rival in the Big Ten while the Wheaton Iceman was cavorting in Illinois colors.

Vic is one of the leading point scorers in the middle west. He played a leading part in the early victories of the team over South Dakota, Carleton and Indiana U. He scored two touchdowns against an Indiana eleven for which adherents of the latter held great hopes. At this recent gait he will give Bo Molenda of Michigan, Marty Karow of Ohio State, Peters of Illinois and the other ball carriers a run for their money in the race for midwest goal scoring honors this year.

Gustafson is a big, powerful fellow whose build belies his speed. While he excels in line plunging he carries the ball cleverly in the open field and knows the gentle art of straight arming.

The big Swede helped Northwestern plunge its way through the Big Ten schedule last season with but one defeat that sustained at the hands of Chicago, 6-0. They beat Indiana, Purdue and Michigan. Tulane turned the Evanston team back 18 to 7 and Notre Dame triumphed 13 to 10. The victory came after the close of the first half, however, Northwestern leading up to that time.

Westminster May Prove No Field Day For Pitt

(Special To The News)

NEW WILMINGTON, Pa., Oct. 28.—"Pitt versus Westminster Saturday afternoon at the Pitt stadium." What impression does this make on the first reading? To the average football fan, it means a let-down for Pitt with Westminster slated to step far out of its class and to receive a lacing that will be rather severe. The catch is this—those who have followed the destinies of Westminster's team this fall know that the eleven has shown continued improvement. The squad has had two weeks to prepare for the major contest and there is just the slightest suspicion that the afternoon will be other than a field day for the oft-tamed Pitt Panther. This is not a hint that Westminster may topple the Pittites but the thought that the game may be close is and will be be enough to attract droves of Westminster students, alumni and friends through the turnstiles of the mammoth amphitheatre Saturday.

Head Coach Dwight Beede has been using "gloved hand" methods this week in preparing his pupils for the big chance. Signal drills have constituted the bulk of the work and indications are that the same manner of drills will top off the week's preparations. There are several reasons why the former Carnegie Tech star has gone easy. Three varsity men are on the edge of being out for good. Wednesday Johnny Hall, flashy freshman halfback, visited Bonesetter Reese at Youngstown and received a treatment for his injured knee. The famous bonesetter gave him considerable relief. However, Hall will not don a uniform until Saturday afternoon and even then may not be used. Ayres, tackle, has a bad knee but practiced Wednesday. Lauder, varsity halfback, has a severe gash above his left eye that has him worried. He was kicked in the Thiel fray. Several stitches were necessary to close the gash. They have been removed but the cut is still tender and the first play of the game may send him to the bench. Campbell, Brown, Coles and Wolfe are the backfield men available if neither Lauder or Hall can play. McCullough will be ready for duty in case Ayres is forced out.

Zelienople To Play New Wilmington On Saturday Afternoon

(Special To The News)

NEW WILMINGTON, Pa., Oct. 28.—The local high school football team will make its second home appearance of the season Saturday afternoon on the Westminster college field when Zelienople high school is played. The eleven played here for the first time last Saturday and lost to a heavy Greenville high eleven by the count of 20-6.

The defeat at the hands of Greenville did not come as a disappointment to the followers of the team. Greenville's line was the largest that New Wilmington has played in several seasons. Even though outweighed, the scrappy Blue and Gold eleven outplayed Greenville during the entire first half and it was only through the medium of two long passes and a blocked punt that Greenville was able to hang up 20 points.

The locals will be out to defeat Zelienople. Last season an easy game was looked for at Zelienople but a distinct surprise was encountered. There will be nothing like this Saturday, according to Captain Bill James. Zelienople has a heavy team and he afternoon's attraction should be worth while.

New Wilmington has three games remaining after the Zelienople fray. Bessemer will be met at Bessemer, November 11. Parkers Landing will come here November 20 while West Middlesex is played abroad in the Thanksgiving Day attraction.

"HAIR-GROOM"

Keeps Hair Combed, Glossy Well-Groomed all Day

"Hair-Groom" is a dignified combing cream which costs only a few cents a jar at any drug store. Millions use it because it gives that natural gloss and well-groomed effect to the hair—that final touch to good dress both in business and on social occasions. Even stubborn, unruly or shampooed hair stays combed all day in any style you like. "Hair-Groom" is greaseless; also helps grow thick, heavy, lustrous hair.

The Noblest Red Man — By Feg Murray

Among the "Football Stars of Other Days" is one whose name is always mentioned whenever an all-time, all-star backfield is being picked. While some experts prefer Eddie Mahan of Harvard, Ted Coy of Yale, and "Red" Grange of Illinois, for the other three positions, and others claim that Willie Heston of Michigan, Walter Eckersall of Chicago, and George Gipp of Notre Dame should be the ones chosen, each and all agree that Jim Thorpe of Carlisle, was easily the greatest all-around football player who ever trod a gridiron.

No all-star team is complete without the name of the wonderful Sac and Fox Indian at half-back, for it is not exaggerating to say that Jim Thorpe could do everything well on a football field. He was the "Red" Grange of his time, and what a pity it was that he did not shine ten or a dozen years later, for then he could have capitalized his remarkable athletic gifts to so much greater extent.

"Lo the Poor Indian," is right! Jim lacked Red's looks and personality, but he had plenty of color, and he could do many things that Grange could not do, such as interfering, kicking field goals, either by drop-kicks or from placement, and punting.

Jim Thorpe was a marvelous broken field runner and also a great line plunger. He tackled sure and hard, and he could pass and receive passes with the best of them. His only weakness was that he was a little lazy and he loved his "fire-water." Pop Warner had to slap him backwards over a chair in a hotel lobby once, to make him realize that training rules were meant to be kept.

Jim remained a great football player for more than fifteen years. The winter of 1925 saw the passing of this remarkable player from the gridiron forever. As he left the field after a professional contest in Florida, he turned and waved a farewell to the game he had played so long and so well. It was dramatic, but almost unnoticed.

Feg Murray Says—

The center is the luckist man on the football team on rainy Saturdays, because he is protected by mud guards.

IVO RADIATOR GLYCERINE (DISTILLED)

—the ideal anti-freeze

Success in its first year!

The use of glycerine as an anti-freeze is not a new thing. It has been used for this purpose for a number of years. But pure, distilled radiator glycerine—correct for general use in automobile cooling systems—was not offered to the public until a year ago.

The success of "IVO," Procter & Gamble's Distilled Radiator Glycerine, was immediate. Motorists, weary of make-shift anti-freeze mixtures, welcomed it. IVO already has made thousands of friends—a remarkable achievement for a product in its first year.

Here are six of the reasons to account for IVO's ready acceptance by the motoring public:

1. Glycerine, the anti-freeze element in IVO, needs no replacement, *because it does not evaporate.* For this reason it is less expensive in the long run. Barring leaks, your cooling system needs but a single filling—at the beginning of the Winter driving season.
2. IVO will not attack rubber hose connections, metallic parts of radiator or motor, or gaskets.
3. If spilled on the hood of a car, IVO will not harm the finest finish.
4. IVO is non-inflammable. No fire hazard.
5. IVO is odorless—a feature of particular interest to drivers of closed cars.
6. IVO has a boiling point but slightly higher than that of water. It will tend to make your motor operate in Winter at a more uniformly efficient temperature.

IVO has this additional advantage over all volatile anti-freeze mixtures. Since it does not evaporate, it is perfectly safe to fill your radiator with IVO *now.* We recommend that you do this so that you may be prepared for that first cold snap which always arrives unexpectedly.

Buy your IVO from one of the dealers listed below.

Before your cooling system is filled with IVO, they will first be sure that it is "glycerine tight." This means tightening all hose connections, gaskets and pump packings and inspecting radiator for possible leaks.

Dealers are equipped with charts showing the amounts of IVO you should buy to protect your car at various low temperatures.

DISTILLED GLYCERINE AS ANTI-FREEZE MIXTURE SUCCESS ON THE NORGE

The Norge, in its flight to the pole, utilized distilled glycerine in its motors as an anti-freeze solution. This fact was revealed in an authorized interview with Lt. Oscar Omdahl of the Norwegian Navy aviation corps and first engineer on the Norge, wired from Nome by George Maynard, editor of the Daily Nugget, Nome, Alaska, and made public in New York by the National Glycerine Service. Lieutenant Omdahl said: "As first engineer on the Norge I had charge of the motors. There were three of the Maybak type, 260 horsepower each. I used 28 percent glycerine anti-freeze mixture. The engines worked 160 hours with the same water and glycerine. I have never been able to find anything that would give the same satisfaction with water-cooled motors." Lieutenant Omdahl, who has made two previous polar flights with

Insight II Captures Newmarket Feature

NEWMARKET, Eng., Oct. 28.—The American sportsman, A. K. Macomber, Wednesday repeated his success of last year by winning the Cambridgeshire stakes, this time with the rank outsider, Insight II.

The winner, by Oversight, out of Court Dress, finished three lengths ahead of the British horse Bulger, and the latter only a neck in front of the French candidate, Asterus. The favorite, Reid Walker's Delius, was fourth.

So little were the chances of Insight II fancied by the bookmakers that the American horse was quoted at the long odds of 50 to 1 against. The two other placed horses also were comparative outsiders.

Great Winter Seen For Stove League

By NORMAN E. BROWN.

Oh, what a winter the approaching one is going to be for the stove league boys.

What with four or five changes in the managerial ranks of the major leagues, half a dozen big league stars supposedly on the auction block, Babe Ruth about to suggest a $150,000 a year salary for himself and Bucky Harris touring Europe, how are the boys to break away in time for dinner or the school board meeting?

Now comes along the report that Bob Meusel, curly headed and one of the most graceful and languid batters in the business, is about to be thrown to the wolves (the one with the biggest bank account) before the 1927 season opens.

It is said that Huggins and Col. Ruppert, both of whom have taken somewhat of an interest in the Yankee team, are peeved at Robert because of his poor playing in the world's series. He has been referred to as a "second Snodgrass" because of his muff which sealed the fate of the Yankmen in the final game of the last world's series.

Another grim trait of Dame Fate. Meusel has given the best part of his baseball life to the Yankees—has been a member of the various "Murderers' Row" aggregations that carried the Yanks to four pennants in six years. And he is right now at the peak of his game. Despite all this his poor showing in one game of a crucial series is about to shove him out of the big town and big money, for the chances of collecting big dough with the Yanks are always good.

However, Huggins isn't going to pass Meusel on for a couple of old war horses or what have you. It will take a brilliant pitcher, a sweet infielder and possibly an outfielder to coax Huggins into a trading move. And the bidder may then have to cross Col. Ruppert's palm with a few grand to put the deal across.

And speaking of baseball. It was suggested the other day that Chick Galloway, Athletics' shortstop, would find himself on the block this winter following the purchase by the Macks of Joe Boley, Baltimore star.

Now the general impression is that Mack will keep Galloway. More than that, he hopes the acquisition of Boley will spur Chick on to greater endeavors. Lack of fire has always seemed to be Galloway's main weakness. Faced with the prospect of being benched, this smooth fielder may "step on it" and show his stuff. Stranger things have happened. And Mack could well afford to keep Galloway for second defense anyhow.

Bridge Purchase Announced Today

(International News Service)

HARRISBURG, Pa., Oct. 28.—State Treasurer Samuel S. Lewis, a member of the joint commission to eliminate toll bridges between Pennsylvania and New Jersey, today announced the purchase of the bridge between Portland, Pa., and Columbia, N. J. The purchase price was $50,000.

As soon as the stockholders of the bridge company approve the action of the directors Lewis will call a meeting of the joint commission to take over the bridge and free it of tolls. Use of the bridge will be temporary, as it is intended that a steel bridge will be constructed a short distance from the present wooden structure.

HIGH LIGHTS OF HISTORY

by J. CARROLL MANSFIELD

Registered U. S. Patent Office. © McClure Newspaper Syndicate.

First Bloodshed of the War.

AT THE OUTBREAK OF THE CIVIL WAR, THE FEDERAL GOVERNMENT FEARED FOR THE SAFETY OF THE CITY OF WASHINGTON. THE NATIONAL CAPITAL WAS ALMOST DEFENSELESS AND RUMORS SPREAD THAT BEAUREGARD WAS ON HIS WAY FROM CHARLESTON TO ATTACK IT. CROWDS FLED FROM THE CITY, WHILE NORTHERN TROOPS WERE RUSHED TO THE RESCUE.

ON THE 19TH OF APRIL, 1861, THE SIXTH MASSACHUSETTS REGIMENT REACHED BALTIMORE ON ITS WAY TO WASHINGTON. MARYLAND WAS A SLAVE STATE AND MANY OF HER CITIZENS WERE STRONGLY IN FAVOR OF SECESSION, AS THE NORTHERN SOLDIERS WERE MARCHING THROUGH THE CITY TO ENTRAIN FOR THE CAPITAL, THEY WERE ATTACKED BY A CROWD OF SOUTHERN SYMPATHIZERS.

THE TROOPS WERE FORCED TO FIGHT THEIR WAY TO THE STATION AND A BLOODY STREET BATTLE TOOK PLACE IN WHICH A NUMBER OF SOLDIERS AND CIVILIANS WERE KILLED. THIS CLASH, IN WHICH THE FIRST BLOOD OF THE GREAT CIVIL WAR WAS SHED, OCCURRED ON THE ANNIVERSARY OF THE BATTLE OF LEXINGTON (SCENE OF FIRST BLOODSHED OF THE REVOLUTION).

OTHER UNION REGIMENTS, FROM MASSACHUSETTS AND NEW YORK, CAME BY WAY OF ANNAPOLIS AND, THOUGH SECESSIONISTS HAD TORN UP RAILROAD TRACKS AND BURNED BRIDGES, ENTERED WASHINGTON ON APRIL 25, AMID GREAT REJOICING.

N. Y. STOCKS

(International News Service)

NEW YORK, Oct. 28.—For the first time in transportation history the volume of weekly freight traffic on American railroads exceeded 1,200,000 cars, according to the Railway Association's report for October 16, issue today. This was the most important factor in the financial district in the early trading, causing further retreat of the bears in the speculative favorites.

The stock market was buoyant in the first hour, but only in isolated cases were price guns more than a point or two. Shorts in U. S. Steel and General Motors paid about a point more for stock than they could have purchased it for yesterday afternoon.

Wall Street was disposed to look for some more favorable announcements from the directors' meetings of important corporations today, including Bethlehem Steel, which is believed to be on the threshold of dividend resumption.

The market drifted into a reactionary trend in the second hour. Traders were ready to take profits on stocks bought yesterday and professionals to renew short selling in anticipation of a dull market over election day. Dupont, new stock, graduating from the curb, was in good demand around 162, while Cast Iron Pipe, General Electric and American Can reached slightly higher price levels in active trading. Oils were firm, coppers and sugars steady.

Girl Startles French School

First Time In History Girl Completes Course In Higher Normal School

TROUT STREAMS THINNING OUT

By ALICE LANGELIER
International News Service Staff Correspondent

PARIS, Oct. 28.—For the first time since its foundation, the old building of the Higher Normal school in the rue d'Ulm, has seen a girl pass through its doors.

Hands went up and many French shoulders were shrugged when the results of the competitive entrance examinations were posted in the order of merit. Marie Louise Jacquotin was second following close upon the heels of Monsieur Legris.

It has been uphill work for this little French girl. After much trouble, she was finally allowed to enter the Chaptal School for Boys as a day student and was spared the practical jokes that boys always play. She came out with honors, determined to enter the Normal high, but even her success in the examination did not insure her entrance.

The Journal Officiel announced that instead of being second, Mademoiselle Jacquotin was only 21st and only the first 20 could be admitted to the school. The minister of education explained that it was impossible for any member of the weaker sex to go to the Normal, saying that the men sleep together in a dormitory, etc., etc.

Still hopeful, Mademoiselle went to a friend of hers, a journalist, who finally persuaded the minister of education to allow her to follow the courses as a day pupil. Her ambition has thus been realized and once more woman has triumphed over man—and this in Paris.

Paris will soon have its rue "Carmen Sylva" commemorating the well-known queen of Roumania who was much beloved in France. Bucharest has recently changed the name of one of its principal thoroughfares, the rue Royal, to that of "Aristide Briand."

There will soon be no more trout in the mountain streams of southern France unless the government quickly gets busy and restocks them. Trout sold for a dollar a pound in Saint Martin-de-Vesubie last summer and even the poachers have not been able to catch any during the last month.

The Bordeaux branch of the Bank of France has just received 56,000 francs in gold coin and another little pile in silver from a farmer living near the city. So far, this holds the record for all amounts turned in. The farmer brought it to the bank in a thick woollen sock. No questions were asked so one cannot just say why he did not comply with his country's request in 1914.

It would have been much better for a certain peasant woman if she had. Widow Legrec, living in Quedeville, Normandy, refused to turn in her little hoard of 1500 gold francs when the war broke out. She had them hidden away in a wardrobe which she supposed was a safe enough spot.

When this recent call came for converting the gold coins into francs, the widow decided to take advantage of the good rates, went to her cupboard and found it bare. Some smart thief had made way with the gold and silver.

Stories of seeing large herds of elephants dancing in the African forest are explained very simply by Major Cuthbert Christy, African big-game hunter.

The reports are true, and the forest contains many "elephants' ballrooms," as travelers have said. But it's not real dancing, for the sport of it, according to the Major—for the elephants dance while asleep.

"In Uganda I once crawled close up to a herd of fifty or sixty," he says. "As I watched they seemed never still, and yet they were as much asleep as elephants ever are. They were flapping their ears, moving their great pedestal-like feet up and down, grinding their teeth, slobbering, or throwing up their trunks or tails. Anything but a restful sleep.

"The elephant never lies down, and he needs an amazing small amount of sleep. He feeds at night often till late in the morning, then may travel many miles before noon. His midday siesta is a habit, but tormented by flies and ticks he flaps his ears, shifting his feet continually, and seems to doze only at intervals."

If hell really went out of business, perhaps it was because earth's competition got too stiff.

Adam saw her for the first time. "Pretty thing", said he, "but her knees look awful".

Controversy Starts On Campaign Funds

(International News Service)

WASHINGTON, Ott. 28.—Campaign funds of the wets and drys became the subject of controversy today with the filing of the pre-election expense statement of the association against the prohibition amendment.

The wets' report was denounced by Fayne B. Wheeler, general counsel for the Anti-Saloon league as a camouflage to cover up widespread operations. G. C. Hinckley, secretary of the anti-dry organization retorted that Wheeler's organization had failed to comply with the corrupt practices act in accounting for its funds.

Contributions which totaled $275,445.55 on October 16 were reported by the anti-Volstead act body with expenditures of $215,870.29.

In making public the list of contributors the wets pointed to the names of many wealthy business men which are included. Among the donors were:

Pierre S. Dupont, Wilmington, Del., $5,000; Irene Dupont of Wilmington, loan of $5,000; Robert R. McCormick, Chicago, $1,000, Mrs. J. S. Wadsworth, Washington, D. C., $2,250; William Wallace, Philadelphia, $1,000, and Jacob Ruppert, New York, $1,000.

The Anti-Saloon league of America's expense statement showed disbursements of $6,025. Expense statements also have been filed by dry organizations in most of the states.

Queen Marie And Party Reach Canada On Start Of 1,200 Jaunt Westward

Special Carrying Royal Party Has Slight Delay In Wilderness

Thirteen-Hour Round Of Social Functions Awaits Queen In Canadian Capital

By DAVID P. SENTNER
International News Service Staff Correspondent

OTTAWA, Ont., (aboard Queen Marie's special train), Oct. 28.—Facing her most strenuous program of entertaining since coming to America, Queen Marie of Roumania arirved in the Canadian capital today. It was the royal party's last day in the east before penetrating the scenic wonders of the west tomorrow with a 1200 mile railroad "hop" to Winnipeg.

Between Toronto and Ottawa the special train "lay over" in the silent wilderness to contribute to the peacefulness of the royal slumber.

Prince Wears Smile.

Queen Marie, Princess Ileana and Prince Nicholas awakened in excellent spirits. The prince, usually nervously bored, wore a smile as broad as the "wide open spaces" ahead of him. His youthful energy smothered beneath a never-ending wave of formal entertainments, the potential heir to the Roumanian throne had his fling in Toronto and was happy. It was not much of a fling, merely an escape from the worshipping multitude to visit places and things he wanted to see—alone, or nearly so.

"I am tired of high hats," exploded the prince. "I have seen the best tables in the United States and Canada but nothing else."

Prince Nicholas likes the mechanical toys of civilization such as railroads. He explored the operation of the Canadian National Railway terminal like a child at his first kindergarten class.

So Nicholas grinned today. There was an added reason. His royal mother surprised him by not scolding him for his sudden dropping out of the royal itinerary. But then it is no secret to those in the "royal know" that her majesty would like to do the very same thing as her royal son and steal away to see life outside the reception hall.

An intensive schedule stretching over 13 hours greeted her majesty. His excellency, the Governor General Lord Willingdon, Hon. J. A. Robb, acting prime minister, members of the cabinet, Mayor Balharrie and a host of civic officials met the queen at the staion. Sparkling uniforms, old world speeches of welcome in a new world atmosphere, martial music and ruffling drums made a welcome fit for a queen.

Prince Nicholas is due to be entertained this afternoon at a "stag" luncheon at government house by the governor general.

Sons Of Veterans Meet On Friday

Matters Of Importance Will Be Considered At This Special Meeting

A special meeting of the Oscar L. Jackson Camp No. 249, Sons of Union Veterans of ths Civil War will be held in the small hall of the organization in the city building on Friday evening. A full turn out of the membership is desired as a number of matters of importance will be up for consideration at that time. Members of Veterans Reserve are also urged to be present.

Gives World More Powerful X-Ray

A new type of X ray or Cathode Tube by which he is able to control billions of electrons traveling at the rate of 150,000 miles a second, has been perfected by Dr. W. D. Coolidge, assistant director of the Research Laboratory of the General Electric Co., at Schenectady, N. Y. The claim is made that 350,000 volts of electricity are shot through the tube, producing a quantity of electrons equal to that of a ton of radium.

World's Next Great Music Genius Will Be American-Sokoloff

By BEN STERN,
International News Service Staff Correspondent

CLEVELAND, O., Oct. 28.—The world's next great music genius, one who will stand on a par with Wagner, Beethoven and Handel, whose music will sum up the entire progress of the world's civilization, will come from America.

This is the confident prediction of Nikolai Sokoloff, conductor of the Cleveland Symphony Orchestra.

"America is ripe for the production of a genius, who will amaze the civilized world with the power and glowing tones of his composition," the conductor said.

"Through the nation-wide interest in music, the fine orchestras that are being brought into existence and the very bringing of music into every home via phonograph and victrola, the stage has been set for the advent of a composer, who will mean as much to this generation as Wagner meant to his.

"I believe that no where in the world is as much attention given to the cultivation of the musical art as in America," declared Sokoloff. Wherever you go in this nation you hear music, whether it be jazz or opera on the lips of all; and this provides the necessary environment in which a budding genius may develop his talent and grow in mental musical stature."

"The people of America today, are much more musical than that of any other country at any other time. We hear a great deal of German bands and the German love of music, but at no time in the musical history of that nation was there evident the popular love of music as in this country today.

Both the school and home will be instrumental in bringing forth the American successor to the great geniuses, who have heretofore come from Europe, Sokoloff added:

"The schools are doing yeoman's service in developing appreciation for the finer things in harmony and it is in a major part due to their good work that music in this country has advanced to its present plane."

Seek New Way To Forecast Weather For Long Stretch

(International News Service)

SACRAMENTO, Cal., Oct. 28.—investigations to determine if it is possible to forecast weather conditions far in advance are being carried out here by Paul Bailey, state engineer.

Bailey is attempting to find out whether or not there is a scientific method for such long distance forecasting. He is especially interested in being able to predict the winter's precipitation as early as November 1.

The value of such a forecast to the agricultural and power interests of the state is obvious" Bailey declared "We should know when to commence filling the reservoirs and if water conservation measures would be necessary in time to prevent a tremendous loss through the runoff of the season's rainfall.

Starting with the proven promise that the winter rains of California are produced by the moisture laden winds of the Pacific blowing over the colder land, state engineers here have set up the theory that the colder the land the heavier the rainfall, the temperature of the land being determined to some extent by the amount of heat received from the sun during the summer and early fall months.

Temperatures from selected stations on the coast were taken in connection with the ocean temperatures over a long period of years the theory was corroborated but during another period it apparently was upset.

"We believe that the variations are caused by other influences" said Bailey "and we feel we are on the right track. I believe that the time will come when the winter snowpack in the Sierras can be accurately forecast in the fall."

Ukrainian Chorus At College Town

Notable Concert To Be Presented At New Wilmington Tonight

(Special To The News)

NEW WILMINGTON, Pa., Oct. 28.—Under the auspices of the Westminster College School of Music, the Ukrainian National Chorus, that "vocal symphony orchestra" conducted by Alexander Koshetz will give a concert in the Community house Thursday evening at 8:15. It will be a real festival out of Russia, presenting a far richer ensemble and a far more brilliant scene with the chorus in native dress than the average concert.

What is there about the singing of the Ukrainian National chorus that has made all Europe and America say that new paths in choral singing have been discovered? With its interesting material and the unusual rendition of folk songs, this chorus has for the past three years been a sensation in the world of music.

Andrew Koshetz, conductor is an artist in every sense of the word. He treats his voices with the subtle delicacy that an orchestral leader uses for his instruments. As a result the exquisite beauty of sound excites at all times the wonder and enthusiasm of the audience. All the numbers are sung "a capella," without instrumental accompaniment.

DONNELLY DIRECTOR OF WOODS COMPANY

M. J. Donnelly, local representative of the Edward A. Woods Company Agency of the Equitable Life Assurance Society, is now a director of the Woods Company agency. He will attend the next meeting of the directors, which will be held Tuesday, November 2, at the office of the president of the Woods Agency, in the Frick building in Pittsburgh.

ENDURED AGONY FROM BRUISES AND STRAIN

Hurt in bad fall, young woman makes quick recovery

A young woman at Bushnell's Basin, Monroe County, New York, fell and was badly bruised and strained.

"I suffered agony," she writes, "but I used Sloan's Liniment and it relieved the pain right away. Now I don't feel it at all."

What is the secret of the almost magical powers of this remarkable remedy?

Simply the fact that Sloan's doesn't merely deaden the nerves so that you don't feel the pain. It really drives out the pain by helping the conditions that are causing it.

Right to the affected spot it brings a healing stream of fresh, revitalizing blood, driving out conjestion, relaxing contracted muscles. The pain stops as a natural consequence.

So clean and easy to use, too. Just pat it on lightly without rubbing, and the liniment will do its work. Get a bottle today and have it on hand. All druggists have it—35 cents.

Crawford County Branch Railway To Be Abandoned

By GEORGE H. MANNING.
(Washington Correspondent of the News.)

WASHINGTON, D. C., Oct. 28.—Total abandonment of the Lakeville branch of the Western New York and Pennsylvania railway operated by the Pennsylvania Railroad company extending seven miles between Tryonville and Lincolnville, Crawford county, Pa., was authorized today by the Interstate Commerce commission.

The abandonment was opposed by grist millers and merchants along the line, although none of them shipped much freight over the line. To leave the way open for them to continue rail service the I. C. C. ordered that the line be sold at junk value to any person desiring to operate it as a public carrier. It is estimated that it would cost $124,950 to reproduce the line at present. The branch has been operating at a deficit which has increased since the completion of a paved highway paralleling its tracks.

FISHING GOOD NEAR GROVE CITY

(Special To The News)

GROVE CITY, Pa., Oct. 28.—The lake at the Grove City Country club has been stocked with game fish for 22 years. It is small wonder then that this past season would have been productive of catches of fish from 3 to 5½ pounds in weight. The fish, all bass, were caught in greater quantity than ever before. Not only does the season of '26 excell in quantity but quality as well for it is said that the fish caught break all former records.

The sport is stated by old timers to be the best they ever knew at the lake. The re-stocking of the lake takes place each year under the supervision of competent men.

When your child has Croup

IN cases of spasmodic croup or kiddies' colds, the child's suffering and your anxiety will find quick relief through the soothing, healing, medicated vapors of Vicks VapoRub.

When Vicks is rubbed over throat and chest at bedtime it acts in two ways at once:—

(1) It is vaporized by the body heat and inhaled direct to the inflamed air passages and lungs, loosening the phlegm and easing the cough; and

(2) At the same time it warms and stimulates the skin like a poultice, "drawing out" the soreness and pain.

Colds are usually better by morning and croup is often relieved with one application.

TODAY'S RECIPES

Veal Chops—Take nice small chops, dust each one with salt, pepper and flour. Dip into one egg, beaten with one tablespoon milk, then in cracker dust. Brown on both sides in frying pan, add boiling water to cover, place in oven and allow to bake one hour.

Lemon Sponge Cake—One cup sugar, one-half cup hot water, three eggs, one and one-quarter cups pastry flour, one-half teaspoon salt, two teaspoons baking powder, grated rind and juice of half lemon, one-eighth cup milk.

Boil sugar and water without stirring until syrup spins a thread and pour slowly on beaten egg white. Add juice and rind of lemon and beat the mixture until cold. Sift flour, salt and baking powder together three times; beat egg yellows until thick, add flour mixtures and egg yellows to first mixture. Add milk, stir lightly and bake in muffin tins. Do not ice.

Southern Soup—One-quarter cup rice, one-half cup minced onions, four tablespoons butter, two cups raw tomatos, two teaspoons salt, one teaspoon sugar, one-eighth teaspoon paprika.

Wash rice and add to four cups rapidly boiling water. Cook till tender. Cook onions in pan with butter till they are light brown; add tomatoes and boil till done. Rub through strainer into boiled rice and water. Add seasoning and let come to a boil. Serve hot with small squares of toasted bread.

Marquise Salad—Three firm tomatoes, one-half cup chopped onions, one-half cup parsley. Mix with rest of ingredients. Mix well. Serve with quartered lemons on salad plates. Olive oil and lemon juice is used for a dressing.

Original Baked Beans—One-half pound navy beans one-half cup sugar, four slices bacon, two cups raw tomatoes.

Soak beans about an hour. Parboil and add bacon and salt. Boil until beans are tender. Add one-half cup sugar and tomatoes. Place in baking pan, and mix well. Put bacon on top and cover with boiling water. Let bake in slow oven three or four hours, adding water twice. Uncover the last 15 minutes to let the top brown nicely.

SUGGESTIONS

A discarded shade roller which has been scrubbed and painted white is ideal for rolling up linen scarfs and centerpieces.

Home dry cleaning may be accomplished in the home laundry by means of utilizing the family washing machine, a pair of rubber gloves, a few gallons of gasoline and benzine soap.

Brush the garments to be cleaned thoroughly with a stiff brush; go over the soiled places with a brush dipped in a solution of gasoline and benzine soap; plunge the garments in the washing machine filled with enough gasoline and soap solution to cover them, using one pound of soap to four gallons of gasoline; wash thoroughly in the solution and repeat the process in a fresh solution; rinse in pure gasoline and then in clear water. Fold the garments in clean towels and wring out. Place them on hangers in the open air to dry.

This dry cleaning process, in the case of ties, scarfs, lace or delicate frocks, may be used without danger of tearing the materials when they are placed in the machine in a pillow slip.

50 years of experience in careful milling
makes Mother's Oats noticeably finer

No wonder this oatmeal tastes so good! No wonder it cooks up so smoothly, always the same!

50 years of experience have taught the careful millers of Mother's Oats how to select the cream of all the oat crop; how to mill it fine and clean and even; how to preserve all the values of the whole grain.

You will notice the difference at once.

Mothers are realizing more and more that normal growth in early childhood depends largely on the right *growth foods* being given plentifully.

So rich is Mother's Oats with milk in tissue-building protein, as well as minerals and vitamins now known to be necessary for growth—that it is one of the most wholesome and nourishing breakfasts for growing children.
